J. DODGE, M. D.,

A new and Rational Mode of Treatment without the aid of the knife or ligature.
A painless, safe and certain cure of Piles, Polypus, Fissure, Fistula and Procidentia, also Chronic Inflammation and Ulceration of the Rectum.

The latter, an unseen and unsuspected terror, producing various symptoms of disease, and in most cases the cause is never known.

The BRINKERHOFF SYSTEM, by which hundreds of thousands have already been cured, is the only means by which these maladies can be successfully treated without pain and inconvenience or detention from business.

Letters from cured patients can be seen at my office.

All diseases of the Rectum permanently cured by the

BRINKERHOFF SYSTEM.

PILES CURED.

USE THE CELEBRATED

PIONEER PREPARED

PAINTS.

They are made of Pure White Lead and Zinc, Pure Colors, Linseed Oil and our Crown Japan Dryer. This combination has the elasticity of White Lead paint and the hard finish of zinc, and will dry with all the gloss in a Varnish; making a covering that will resist the action of the elements longer than any other paint in the market.

The Best in the Market,

THE STRONGEST GUARANTEE OFFERED.

RULES FOR MEASUREMENT.

Anyone can tell how much paint to buy by this rule: Say your building is 20 feet wide in front, 20 feet in rear, 30 feet long on side, 30 feet long on other side, this makes 100 feet around the building; say 20 feet high, (one gallon will cover 250 square feet, two coats) 8 gallons will paint this size house, two coats, on a good smooth surface. If the surface is rough or uneven, it will require more.

GUARANTEE.

When our Pioneer Prepared Paint is put on any building, and if within three years, it should crack or peel off, and thus fail to give the full satisfaction guaranteed, we agree to re-paint the building at our expense, with the best White Lead, or such other paint as the owner may select. Should any case of dissatisfaction occur, a notice from the dealer will command our prompt attention.

T. H. NEVIN & CO.

DIRECTIONS MUST BE FOLLOWED IN APPLYING.

First.—Take the head out and stir thoroughly from the bottom. Small packages are suitable for use as buckets to apply the paint. *Second.*—Lead and zinc being the heavier bodies settle to the bottom, and the oil and dryer remain on top; this necessitates thorough stirring to procure uniformity of body and color. Our paint is mixed of the right consistence for usa, and nothing should be added no it, but if standing exposed or open it should thicken, add a little BOILED OIL; do not use BENZINE or TURPENTINE, as they will kill the GLOSS FINISH.

—:o:—

FOR SALE BY ALL DEALERS.

INTEMPERANCE A DISEASE.

When the celebrated Dr. Rush declared that drunkenness was a disease, he enunciated a truth which the experience and observation of medical men is every day confirming. The many apparently insane excesses of those who indulge in the use of spiritous liquors may thus be accounted for. The true cause of conduct, which is taken for infatuation, is very frequently a diseased state of the Liver. No organ in the human system, when deranged, produces a more frightful catalogue of diseases. And if, instead of applying remedies to the manifestations of the disease, as is too often the case, physicians would prescribe with a view to the original cause, fewer deaths would result from diseases induced by a deranged state of the Liver. Three-fourths of the diseases enumerated under the head of Consumption have their seat in a diseased Liver. *The Genuine Dr. C. McLane's Liver Pills*, prepared by Fleming Bros., Pittsburgh, Pa., are a certain cure.

Mr. Jonathan Houghman, of West Union, Park county, Illinois, writes to the proprietors, Fleming Bros., of Pittsburgh, Pa., that he had suffered greatly from a severe and protracted attack of Fever and Ague, and was completely restored to health by the use of the Genuine Dr. C. McLane's Liver Pills alone. These Pills unquestionably possess great tonic properties, and can be taken with decided advantage for many diseases requiring invigorating remedies, but the Liver Pills stand pre-eminent as a means of restoring a disordered Liver to healthy action; hence the great celebrity they have attained.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by FLEMING BROS., Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation. 25 cents a box.

Mr. and Mrs. Williams, No. 248 Seventh street, N. Y., testify that they have both been suffering with liver complaint for about five years, during which time they have spent a large amount of money and tried many remedies, but to no purpose. Finally, hearing of *The Genuine Dr. C. McLane's Liver Pills*, prepared by Fleming Bros., Pittsburgh, Pa., they purchased four boxes, which they took according to the directions accompanying each box, and now pronounce themselves perfectly cured of that distressing disease.

This is to certify that I have been subject at times to severe headache; sometimes the pain would be so severe I could rest neither day or night. Hearing of *The Genuine Dr. C. McLane's Liver Pills*, prepared by Fleming Bros., Pittsburgh, Pa., I sent and got a box, of which I took two pills on going to bed, for two nights. *They relieved me entirely.* Some time has now elapsed, and I have had no more trouble from sick headache.
H. JOHNSTON, 118 Lewis street, N. Y.

This is to certify that I have had the liver complaint for six years, and never could get any medicine to help me until I commenced using *The Genuine Dr. C. McLane's Liver Pills*, prepared by Fleming Bros., Pittsburgh, Pa. I can now say to the public, that they have completely cured me; and I do hereby recommend them to all persons afflicted with a diseased liver. *They will cure. Try them.*
MARIA EVANS, No. 93 Lewis street, N. Y.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by FLEMING BROS., Pittsburgh, Pa. 25 cents a box by mail or from druggists.

—When are watches easily stolen? When they are off their guard.

—When ignorance is bliss, it is folly to ask the landlady what she puts in the hash.

—Why is the treadmill like a true convert? Because its turning is the result of conviction.

—It takes 25,000 people packed as in a political meeting to fill an acre. It takes a dentist an hour.

—Why didn't the last dove return to the ark? Because she had sufficient grounds for remaining away.

—The man who always carries something good in the newspaper, is the chap who carries his lunch wrapped up in it.

—"You're the greatest woman I ever heard of," said the boy to his mother; "You tell me I have a bad temper, and yet blame me for losing it."

—A soft answer turneth away wrath, but this is no reason why a man should be continually exclaiming "mush" while his wife is scolding him.

—"You have only yourself to please," said a married friend to an old bachelor. "Yes," he replied, "but you don't know how difficult that is."

—Elephant herds are always led by female elephants. Just the same the world over. If anything is heard, the female takes the lead in circulating it.

—"Dear sir," said an amateur farmer, just from the city, writing to the chairman of an agricultural society: "Put me down on your list of cattle for a calf."

—"Yes," said a young lady, who had been thumping on the piano for two hours, "that baby in the next house fairly sets me wild with its noise."

—A little boy complained to his mother that the teacher couldn't remember his name. "When she speaks to me," he said, "she always calls me Silence."

—He had been ridiculing her big feet, and, to get even with him, she replied that he might have her old sealskin sacque made over into a pair of earmuffs.

—An agricultural paper has an article on "the time to look after poultry." We are not so very well up in such matters, but we imagine the night time would be about right.

The New Fuel of the Smoky City—Natural Gas.

The novel fuel supplied by natural gas claims the very first consideration in any review of the industries of Pittsburgh and Western Pennsylvania. The faith enterprise has in the continuance of the supply, is shown in the fact that over three millions of dollars have been expended in providing pipe lines for the conveyance of natural gas to Pittsburgh and the numerous manufacturing centers of the neighborhood. Such pipe lines aggregate now a total length of five hundred miles, including the service pipe to individual points of consumption. The change of fuel, from coal to gas, is so radical that it is simply impossible to indicate even the chief consequences—of the same, for economy, great as the saving, is not even the leading element. In most processes of manufacturing carried on here, the users of natural gas are benefited by either greater facility of carrying on work or a decided improvement in the product, or an increased quantity of the same. Every branch of work, for some one or more of those reasons, has in addition to the saving of the cost of fuel been anxous to introduce the subtle calorific. Nor should we forget its superb attractions as a domestic fuel, the cleanliness and comfort with which the heating of dwellings is now effected; the radical change stops not by any means within doors—the cities and towns hitherto enveloped by a pall of coal-smoke, which covered everything with a surface of soot and dirt, are already perceptibly improved in appearance. No one, not familiar with the never ending struggle of washing and cleaning as witnessed hitherto in Pittsburgh and Allegheny City, can form a remote idea of a change brought about by the introduction of natural gas into provite houses. The wear and tear of textile fabrics of all sorts, furniture, etc., caused by the all-pervading soot and consequent cleaning, runs into millions annually, and estimating a saving for each domicile of only one hundred dollars per annum, the reader may figure out for himself how much a population of nearly 500,000 may save in future.

It was stated at a meeting of the Chamber of Commerce that the waste of gas within "piping" distance of Pittsburgh was over seventy millions of cubic feet per day — as each one thousand cubic feet of gas represents an equivalent of about a bushel of bituminous coal (or seventy-six pounds) the daily waste may be calculated at over $3,500. The three hundred miles of gas mains in operation deliver to the manufacturing establishments of Pittsburgh and vi-

cinity and private dwellings, a heating power about equal to that supplied by the consumption of two million bushels of coal per month, or almost one million of tons per annum. This is equal to more than one-third of the local consumption of coal a year or two ago.

The following is a list of the natural gas companies having established pipe lines to Allegheny and Pittsburgh:

Penn Fuel and Fuel Gas Consolidated Co.—Murraysville to Pittsburgh. Three lines of 5⅝ inches in diameter, one line of 8 inches in diameter, one line of ten inches in diameter.

Philadelphia Co.—One line of 10 inches diameter, Tarentum to Pittsburgh and Allegheny; two lines of 8 inches in diameter, Murraysville to Pittsburgh and Allegheny.

Ford & Nelson Lines.—One line 5⅝ inches, from McGuighan Wells, Washington County, to Pittsburgh; one line 8 inches, from McGuighan Wells, Washington County, to Pittsburgh.

Carpenter Line—One line of 8 inches in diameter, Murraysville to McKeesport and Pittsburgh.

Acme Gas Co. Line.—One line 8 inches in diameter, from Murraysville to Braddock and Homestead.

National Tube Works Line.—One line 8 inches in diameter, from Murraysville to McKeesport.

—Spang, Chalfant & Co.'s Line.—One line 6 inches in diameter, from Butler County to Sharpsburg, Pa.

Hite Line.—One line 8 inches in diameter, from Tarentum to Hulton and Allegheny City.

From fifteen to twenty towns are already supplied, and the terms at which fuel as now produced, may be judged by those of the town of Clarion: Cook stove, per annum, $26.66; cook stove and one heating stove, $40 00; cook stove and five heating stoves, $66.66. The rates charged in Allegheny City are 10 cents per 1,000 cubic feet, special rate for manufacturing establishments. The gas mains enumerated above form a total length of over three hundred miles, the distributing pipes, laid three or four feet under the grade of the street, and the branches to points of consumption number at least two hundred miles more. By the 1st of January, 1886, a net work of at least six hundred miles of iron pipes will be found conveying the novel fuel to the manufacturing centers of Pittsburgh and Allegheny City and suberbs; several gas companies also in Beaver Valley from which Beaver, Rochester, Beaver Falls and New Brighton are supplied. The difficulties formerly encountered in laying pipes, and in

preventing leakage or providing that the same shall do no harm, have been successfully overcome by a number of novel devises which it would be impossible to specify here. These difficulties are such as to make it quite certain that this means of conveyance of natural gas is limited to a distance not much greater than has already been accomplished. The friction of the gas fluid reduces the pressure at the rate of seven pounds per mile; that is to say, an original pressure of even two hundred pounds at the well will be reduced to nothing in a distance of thirty miles, and the delivery of gas will, of course, be in the same ratio. This pneumatic law is often lost sight of by those who suggest the possibility of taking our subtle fuel to the cities along the seaboard, and point to the pipe lines laid for the conveyance of petroleum. While it costs only 10 cents to pump a barrel of petroleum to the Atlantic coast the futility of doing the same with hydro-carbon gas, of which twenty-five cubic feet only weighs one pound, should be obvious to any intelligent inquirer.

The conclusion which every such, whether resident of the region or coming here from other parts, has been compelled to come to is, that:

1st. There is an abundance of natural gas in Western Pennsylvania, its exhaustion cannot now possibly be counted upon, at either a near or a remote point of time; and

2d. That this fuel to be utilized must be consumed within a radius of thirty to forty miles from the supplying wells; and

3d. That it is not safe to plant any manufacturing establishments depending on a single well, but reliance can only be placed on supply by a pipe or pipes.

4th. That by the use of natural gas as a fuel a saving of from 33 to 50 per cent. may be effected as compared with the cost of coal fuel in other manufacturing centers of the United States. These axioms are incontrovertible, in fact, sanguine men go much further; but, satisfied with these, it is easy to see what a conspicuous influence the new system of fuel and of heating will exercise in the near future.

Manufactories of all sorts will be drawn here to Western Pennsylvania, especially those in which the cost of fuel is at all considerable. The abundance of skilled labor, healthful climate, cheapness of transportation, both by river and rail, are reinforced by natural gas, so as to make the regions of Pennsylvania attractive to most forms of manufacturing.—*Chamber of Commerce Report.*

THE CHROMOGRAPH.

The copygraph, chromograph, and a variety of other names have been given to the simple arrangement by which letters, drawings, plans, music, etc., can be copied at a slight cost. The process has been patented in England, but in absence of any patent in this country a number of persons have made the article and advertised it for sale at prices varying from $3 to $7.50, according to size, in either case allowing very handsome profits. A tablet of gelatine is prepared thus: Take one part by weight of gelatine (glue will do just as well), soak in two parts of water till melted, to which add four parts of common glycerine, with a few drops of carbolic acid, and sufficient whiting or white lead to give the whole a milky appearance. Pour the mixture into a shallow zinc or tin dish, and it will be ready for use in about twelve hours. The use of the whiting or white lead is to show up the writing on the composition, and to enable the washing off to be observed more easily. The ink used is made of one part violet methylated analine, (Hoffman's purple) seven parts distilled water, and one alcohol; but acetic rosaniline, boiled down in alcohol till it does not run in writing, forms a capital red ink. To use the process, write on a hard finished paper with the ink taking care that the writing is thick enough to show a green luster when dry. When thoroughly dry place it face downwards on the jelly, rub it gently to bring it well into contact, and leave for three minutes, then peel it off. It will leave a portion of the ink neatly transferred to the jelly; then place the paper to be printed on the writing and pass the hand over, bring it well in contact as before, peel it off, and it will bring away a perfect copy of the original. In this way sixty to eighty copies my be made; by using a thick pen and plenty of ink one hundred good copies may be taken If the original still shows a green lustre, another transfer may be made. When exhausted, wash off the ink from the jelly with a sponge and cold water. A layer of the compound one quarter of an inch thick would give 5,000 copies at least, if not twice that number. If the jelly is injured it can easily be melted down over a spirit lamp or in an oven. After melting, and in the first instance after making, the surface should be washed with cold water.

PHENOL SODIQUE.

Proprietors, HANCE BROTHERS & WHITE, Philadelphia.

Invaluable as an astringent and styptic application in HEMORRHAGES, and after EXTRACTION OF TEETH, and to prevent subsequent SORENESS OF THE GUMS; as a wash for the mouth in cases of DISEASED GUMS or APHTHOUS CONDITIONS, or to DISINFECT AN OFFENSIVE BREATH.

☞ *For Sale by Druggists and General Merchandise Dealers.*

North Branch, N. Y., Feb'y 28, 1883.

Messrs Fleming Bros.:

Gents:—I purchased two bottles of Dr. C. McLane's Vermifuge of H. Inderlied, and used it with the best result of any Worm Remedy I ever used. I shall take great pleasure in recommending it to anyone as the best worm medicine I ever used.

E. ACHERMAN.

North Branch, March 1, 1873.

Fleming Bros., Pittsburgh, Pa.:)

I was induced to try a bottle of Dr. C. McLane's Vermifuge by Mr. H. Inderlied, of this place, which I used in my family with most satisfactory results. H. C. MOOT.

NEW BRIGHTON, Feb'y 16, 1883.

Dear Sirs:—You want to know what success I had with Dr. C. McLane's Vermifuge. I recommend it to all to be the best worm destroyer in the world. I have used different kinds, but I never found anything that would destroy worms like it. I have seen one tablespoonful destroy 80 worms. Lemonade is a very good thing to drink after, to take the bad taste away from the child's mouth.

Yours respectfully,

MRS. SARAH A. GUTZ.

White Oak Gap, Pulaska Co., Ky., April 10, 1883.

Fleming Bros.:

Dear Sirs:—About 5 years ago one of my children, then about 3 years old, commenced having kind of spells or fits. I procured a vial of Dr. C. McLane's Vermifuge, gave one dose. It brought 63 worms. We were very much gratified at the result, thinking she was cured. But the next night the spell returned, to our surprise. We gave the balance of the bottle, and in all it brought 373 worms that we counted. The chickens destroyed some. This spring your Vermifuge brought from one 92, another 89; one dose brought 25 from another. You may use this if you want to, and anyone that doubts this, they can write to me with stamp, and I will write to them, stating the same, and you may know what I think of the Vermifuge by the amount I have ordered for my own use. Yours, &c.

G. W. GASTINEAN.

North Branch, N. Y., Feb'y 28, 1883.

Messrs. Fleming Bros., Pittsburgh, Pa.:

Gents:—I take great pleasure in recommending Dr. C. McLane's Vermifuge. I have used it in my family with the most gratifying results. and shall use no other hereafter.

Yours, JOHN DAVIS.

Beaver Falls, Pa., January 18, 1883.

Messrs. Fleming Bros.—Gentlemen: This is to certify that the worms contained in the bottle sent you were taken from my two children, the oldest, a girl aged three years and seven months, from whom eight worms were taken; the other, a boy aged one year and six months, from whom nine were taken. by the use of The Genuine Dr. C. McLane's Celebrated Vermifuge, which I think is the best worm medicine in the market.

Yours truly, JACOB YOUNG,

Chippawa township, Beaver Co., Pa.

Sharon, Pa., November 4, 1882.

Messrs. Fleming Bros.—Gentlemen: Miss Mary J. Neely, after taking one bottle of Dr. C. McLane's Vermifuge passed 340 worms.

MINERAL TURPS

A SPECIALTY.

Manufactured expressly for Varnish Makers' and Painters' use. Is entirely free from all Naphtha odor, and possesses good solvent properties. Will readily mix with turpentine. It is a saving of money and does not fail to give satisfaction wherever it is used.

THE INVALUABLE DOMESTIC REMEDY!

PHENOL SODIQUE

Proprietors, HANCE BROTHERS & WHITE, Philadelphia.

Is an invaluable remedy in DISEASES and INJURIES of ANIMALS and POULTRY; destroying LICE and other VERMIN. Applied by washing the fowls, their roosts and nests with a solution of the strength of one part PHENOL SODIQUE to about fifteen or twenty parts water. A Solution of the same strength is also recommended, given internally, for the gaps and other DISEASES of CHICKENS.

☞ *For Sale by Druggists and General Merchandise Dealers.*

When About to Paint

The first thought is what color and trimmings shall be used to produce the most desirable effect, combining utility and durability. This is a hard question to answer. The color and trimmings used on one house with pleasing results may, when applied to another building with different surroundings, have an entirely different effect. House painting under the modern regime has developed into one of the high arts commanding constant study and attention, and only those who make it such are fully competent to make selections with any assurance of pleasing. The dark blues and greens that have been so extensively used during the past two years, and are still in great demand, have been a source of great annoyance to the most of our practical painters, as well as of pleasure or regret to those having the colors applied. The cause can be found in the fact of not having studied the surroundings in connection with the shade of color used.

Almost invariably the second question is, will the color fade? There is but one answer to all on this point, *Yes;* all colors will change, and the more *positive the color the more noticeable the change,* and only where natural earth or metallic paint colors are used for tinting can you expect durability of same; all light colors are to a greater or less degree affected by atmospherical action. Those who claim to the trade that the color will not change show they are not conversant with the subject on which they are treating, and to the consumer of paints the new era or return to neutral and light tints will be hailed with delight.

T. H. NEVIN & Co.

—People do not care to give alms without some security for their money; and a wooden leg or a withered arm is a sort of draftment upon Heaven for those who choose to have their money placed to account there.

—Let grace and goodness be the principal lodestone of thy affections; for love which hath ends will have an end; whereas, that which is founded on true virtue will always continue.

—Open rebukes are for magistrates and courts of justice. Private rebukes are for friends, where all the witnesses of the offender's blushes are blind and deaf and dumb.

—Keep true thy deeds, thy honor bright,
Keep firm thy faith in God and right.

HOW TO PAINT.

NOTICE FURTHER DIRECTIONS ON EACH PACKAGE.

See that the surface to be painted is dry. Coat all knots and sappy streaks in new work with Shellac Varnish. Shake the package well; stir the paint thoroughly. Apply as you would Pure White Lead in Oil. When thoroughly dry putty up nail holes. IF DIRECTIONS ARE FOLLOWED AND PAINT IS PROPERLY APPLIED, two coats are sufficient, presenting a rich enamel finish, impervious to moisture, which will not CHALK, BLISTER, PEEL OR CRACK, EVEN AFTER YEARS OF EXPOSURE. Should a shower of rain interrupt the progress of the work, let the paint alone, as it will not "crawl," "run" or "wash off," the same as paints mixed in the old way.

KEEP AMMONIA IN THE HOUSE.

No housekeeper should be without a bottle of spirts of ammonia, for, besides its medical value, it is invaluable for household purposes. It is nearly as useful as soap, and its cheapness brings it within the reach of all. Put a teaspoonful of ammonia to a quart of warm soapsuds, dip in a flannel cloth, and wipe off the dust and fly specs, grime and smoke, and see for yourself how much labor it will save. No scrubbing will be needful. It will cleanse and brighten silver wonderfully; to a pint of hot suds mix a teaspoonful of the spirts, dip in your silver spoons, forks, etc., rub with a brush, and then polish on chamois skin.

For washing mirrors and windows it is very desirable; put a few drops of ammonia upon a piece of newspaper and you will readily take off every spot or finger mark on the glass. It will take out greese spots from every fabric; put on the ammonia nearly clear, lay blotting-paper over the place and press a hot flat-iron on it for a few moments. A few drops of water will clean laces and whiten them as well; also muslins. Then it is a most refreshing agent at the toilet table; a few drops in a basin of water will make a better bath than pure water, and if the skin is oily it will remove all glossiness and disagreeable odors. Added to a foot-bath it entirely absorbs all noxious smells so often arising from the feet in warm weather, and nothing is better for cleansing the hair from dandruff and dust. For cleaning hair and nail brushes it is equally good.

Put a teaspoonful of ammonia into one pint of warm water, and shake the brushes through the water. When the brushes look white rinse them in cold water, and put them in the sunshine, or in a warm place, to dry. The dirtiest brushes will come out of this bath white and clean. For medicinal purposes ammonia is almost unrivaled. For the headache it is a desirable stimulant, and frequent inhaling of its pungent odors will often entirely remove catarrhal cold. There is no better remedy for heartburn and dyspepsia, and the aromatic spirits of ammonia is especially prepared for these troubles. Ten drops of it in a wine-glass of water are often a great relief. The spirts of ammonia can be taken in the same way; but it is not as palatable.

In addition to all these uses, the effects of ammonia on vegetation are beneficial. If you desire roses, gera-

Wherever introduced it established itself a *favorite* Domestic Remedy.

☞ *Sold by Druggists and General Merchandise Dealers.* ☜

THE CHINA STORE

OF W. A. Green

622 PENN AVENUE, Opposite Library Hall, PITTSBURGH, PA.

ALL GOODS STRICTLY FIRST QUALITY. NOVELTIES A SPECIALTY.

niums, fuschias, &c., to become more flourishing, you can try it upon them by adding five or six drops of it to every pint of warm water that you give them, but don't repeat the dose oftener than once in every five or six days, least you stimulate them too highly. Rain water is impregnated with ammonia, and thus it refreshes and vivifies vegetable life. So be sure and keep a large bottle of it in the house, and have a glass stopper for it, as it is very evanescent and also injurious to corks, eating them away.

—Better three hours too soon than one minute too late.

—Good taste rejects excessive nicety; it treats little things as little things, and is not hurt by them.

—The beggar is the only man in the universe who is not obliged to study appearance.

—A false friend is like a shadow on a dial; it appears in clear weather but vanishes as soon as a cloud approaches.

—If you have built castles in the air, your work need not be lost. That is where they should be; but put foundations under them.

—A man can frequently polish his boots with better grace than he can polish his manners.

—Nothing makes the world seem so spacious as to have friends at a distance; they make the latitudes and longitudes.

—SAVING MONEY.—The young man who begins by saving a few shillings a month and thriftly increases his store—every coin being a representative of solid work honestly done—stands a better chance to spend the rest of his life in affluence than he who, in his haste to become rich, obtains money by dashing speculations, or the devious means which abound in the foggy regions between fair dealing and fraud.

—A FAIR ARTIST.—Girls who paint may learn a lesson from this: A young lady painted a picture of a Jersey cow, that she thought a wonderful work of art, and so did the family. After the household had admired it to their hearts' content, the fair artist carried her sketch into the kitchen to get the opinion of Aunt Dinah. "Law, missus!" was the delighted response; "it is booful, I 'cla! What is it—a sheep?" The young lady has now turned her attention to darning stockings.

No. 629 Penn Avenue, Pittsburgh, Pa.

THE VILLAGE ORACLE.

Beneath the weather-beaten porch
That shades the village store,
He sits at ease, an aged man
Of three-score years or more,
That ample seat for him is placed
Beside the open door.

His face is very keen and shrewd,
And piercing are his eyes,
As with an air of prophecy
He scans the cloudy skies;
And children look with awe on him,
For he is weather wise.

And jolly farmers, riding by
On loads of fragrant hay,
Call out, "Good morning, Uncle Dan!"
And "Will it rain to-day?"
While boys who would a-fishing go,
Await what he would say.

"Wal, ef the wind should change about"
(They listen eagerly,
But he is very slow and calm—
For thus should prophets be),
"Maybe dem clouds will bring us rain.
But I dunno," says he.

And ever, as the seasons come,
And as the seasons go,
The oracle is asked the signs
Of wind, or rain, or snow,
But still he never hesitates
To answer "I dunno."

PLAYING EUCHRE WITH A WOMAN.

"Whose play is it?"
"Who took that trick?"
"What's trumps?"
"What was led?"
"Whose ace is that?"
"Did I take that?"
"What's trumps?"
"Is it my play?"
"That's the left bower, isn't it?"
"Is that mine?"
"Ain't you got a club?"
"What's trumps?"
"Did they euchre us!"
"How many did we make?"
"Whose deal is it?"

WHERE THEY SAW IT.

"Did any of you children ever see an elephant skin?" inquired the school teacher. "Yes," echoed several voices in chorus. "Where?" continued the teacher. "On the elephant's back," was the rejoinder.

A MEMBERSHIP fee of ($5.00) five dollars on each certificate will be required with the application for membership, and no more than ($5.00) five dollars can be assessed in any one year for expense of management by the Peoples' Mutual Accident Association, of Pittsburgh.

CARPETS & WALL PAPER.

NEW STORE! NEW GOODS!

Having removed to Stores formerly occupied by BOGGS & BUHL, No. 120 FEDERAL ST., and 65 and 67 PARK WAY, ALLEGHENY, we are prepared to offer the largest and most varied lines in the city of

CARPETS, OIL-CLOTHS, MATTINGS,

Window-shades, Lace Curtains, Cornices and Poles.

WALL PAPER IN ALL GRADES, FROM CHEAPEST TO BEST.

D. & F. S. WELTY,

120 Federal St., ALLEGHENY, PA.

AMOUNT REQUIRED

For a job, that will prove absolutely correct in every case, because of the great variety of surfaces and conditions to which the use of paint is subject.

1. More will be used in cold weather than in warm.
2. A rough surface will take more than a smooth one.
3. A careful, experienced painter will use less than an amateur.
4. A strong man will use less than a sickly one or a boy.

Our Positions are always Pleasing and Graceful—DABBS.

Dabbs is using the Instantaneous Process exclusively.

ARBOR VITAE

"The Tree of Life."

THE CURE FOR DYSPEPSIA.

This article is unequaled as a Blood Purifier, and has no successful rival as an Appetizer.

TRADE MARK.

ARBOR VITAE is the only speedy cure for Indigestion. If you have trouble from your kidneys, take Arbor Vitae. If your blood is impure, take Arbor Vitae. It never fails to cure Sick Headache.

Manufactured only by the

ARBOR VITAE

MANUFACTURING CO.,

Allegheny, Pa.

SOLD BY ALL DRUGGISTS.

$1.00 per Bottle. Six Bottles for $5.00.

ALLEGHENY, July 15, 1885.

ARBOR VITAE MFG. CO. GENTLEMEN:—I suffered for three years with the worst kind of indigestion, accompanied by a headache and a dizziness, which, at times, entirely unfitted me for business. I tried several different medicines without relieving my miserable condition, and finally obtained and used your wonderful discovery, Arbor Vitae. Since the first day I used it, I have grown constantly better, and to-day my health is in as good a condition as it could be. I feel myself obliged to thank your great medicine. You may use this testimonial as you see fit, as I desire to testify, before everyone, to the quality of your great Arbor Vitae.

Yours thankfully, JOHN G BAUMAN.

HE HAD BEEN THERE BEFORE.

A gentleman recently met an old acquaintance, and remarked:

"Ah, Jones, I'm sorry to see you with that limp, hurt your foot?"

"No."

"Got a bad corn on it? Terrible weather for corns."

"No."

"Bunion?"

"No."

"Ingrowing toe nail?"

"No."

"Well, what is the matter with it?"

"There is nothing the matter with it. I'm booked for a Sunday-school picnic to-day, and I suppose they've an idea they'll use me for a mule to pack wood and carry water and put up swings, like they did last year, but they'll get left. I'm lame. Cut my foot half off. Had a railroad train run over it. Got it caught under a trip-hammer. I'm going to sit in the shade and have 'em bring me strawberries and cream.

MORAL.—Secure a certificate in the Peoples Mutual Accident Association of Pittsburgh.

FORTUNE TELLING.

Will he come this year—will he come the next?
Will he come to-day? She lightly blew
With sweet red lips the thistle-down,
Whispering, tell me—oh, tell me true!

Does he love me well—does he love me well?
No doubt, in her heart the maiden knew;
But in whispers soft she said again,
Thistle-down, thistle-down, tell me true!

For every maid in the wide world knows
That sweet, sure prophecy. Dolly drew
Her little mouth into rosebud shape,
Saying, oh, thistle-down, tell me true!

Yes, he loves you well. Oh, he loves you well!
When will he come? He will come to-day!
This is the answer the thistle-down
Gives to her heart, as it flies away.

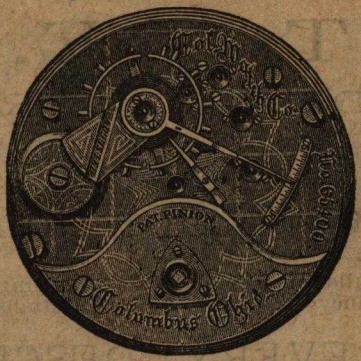
And Dolly that night, at the garden gate,
And Harry, the farmer, brave and brown,
Look into each other's eyes and say,
"A prophet true is the thistle-down."

—Carlotta Perry.

C. S. HAUSER,

—SPECIAL AGENT FOR THE—

Columbus Quick-Train Watch



BUTLER STREET,

Between 43d and 44th Sts., - - - PITTSBURGH, PA.

Come in and see the new movement. It runs from 6 to 8 hours longer than other watches; the spring is one-third weaker and not so liable to break. The hair spring cannot spring out of the regulator and cause the watch to run two hours fast. The balance wheel is set on one side to avoid breakage in case of falling, as per above cut. We also handle the ROCKFORD WATCH. Fine Watch Repairing. All work warranted.

T. H. NEVIN & CO.,

MANUFACTURERS OF

STANDARD

Oxide-of-Iron

PAINT.

These paints stand unequaled for durability and covering qualities. They are used for painting tin and sheet iron roofs, box cars, steamboat decks and hulls, fences, gas and oil tanks, barns, in fact anything the color can be adapted to. It being a metallic fire and weather-proof paint, makes it equally valuable for painting wooden or metallic surfaces.

The **"Standard Oxide-of-Iron Paints"** do not peel or rust, like many other clay or mineral paints do. They cover like Red Lead, and will wear longer. Hard and durable metallic coating, impervious to water and unaffected by exposure to the weather.

Our paints are sold **dry, ground in oil, or mixed ready for use,** in any sized packages, at reasonable prices.

DREAMS.

TREES.—Seeing a beautiful oak signifies wealth, profit. To see an olive tree, loaded with olives, denotes happiness and success. Seeing a laurel tree signifies victory and pleasure; seeing a cypress tree, a bad omen; seeing a pine tree betokens idleness; seeing apple trees and eating sweet apples, signifies success and joy; sour apples denotes quarrels and sedition. Seeing a vine signifies abundance: eating ripe grapes, denotes joy and profit. Peaches, apricots, and similar fruits, in season, good omen; out of season, bad omen. Seeing different trees in full leaf, denotes joy and consolation. Climbing into a large tree, signifies elevation to dignity and honor; falling from a tree, denotes a loss of favor with those superior to you.

EAGLE.—Seeing an eagle is a good omen. Seeing a dead eagle, disaster to those in good position, to the poor it predicts profit.

CROW.—This is a bad omen.

SWAN.—Denotes good health, pleasure and gaity.

ROOSTER.—To hear it crow is an omen of joyousness and prosperity; to see them fight, predicts quarrel and combat.

ALLEGHENY TRIMMING NOTION & FANCY GOODS STORE,

GOOD GOODS, LOWEST PRICES.

WALDIE & THOMPSON,

109 Federal Street, Allegheny, Pa.

THE PROVIDENT MULE.

A mule having received a nice present, hid it carefully away in a hollow tree. "Why did you hide your present?" asked one of the aminals. "Because I intend to keep it for my children." "But suppose you should have no children?" "Then it will do just as well for my grandchildren," replied the mule, with a poetic expression of parental tenderness. Moral—This fable teaches that a man's foresight may be so far-reaching as to sag in the middle and get blunt at the business end.—*Life.*

Dabbs' conception of the human face so as to show the strongest likeness, is acknowledged to be a gift.

ALLEGHENY, PA.

PEA FOWL.—Denotes that you will marry rich.

SERPENT.—Signifies treason on the part of a woman. To dream that you kill a serpent, indicates that you will triumph over your enemies.

FROGS.—Denote flattery.

FISH.—Catching large fish, predicts gain and profit; if the fish be small it denotes sadness. Invalids seeing fish of many colors, is a sign of restoration to health; to those in health, it indicates injuries, quarrels or sorrow.

HOUSE.—Seeing a house that needs paintiug, signifies should buy some Pioneer Prepared Paint.

HAIR.—To see a woman bald, is a very bad omen; to see a man bald, is just the reverse. Seeing hair of mixed colors, signifies vexation, sorrow and trouble; if difficult to comb, vexatious lawsuits; to see it fall out, denotes vexation and loss of wealth; seeing the hair longer and darker than usual, denotes riches and honor. The hair becoming thin and disarranged, it is a sign of affliction and poverty.

RUNNING.—To see a deer or a rabbit running, signifies the acquisition of wealth. When a sick man runs himself, is a bad sign; a female running with any one, signifies that she will experience loss or damage; if a man runs, it is a good omen.

DOVES.—This a good omen.

THE STRAW SIGN.—If you find a blade of straw lying in your chamber, you may expect a visitor that same day. If there is one grain upon the straw, the visitor will be a gentleman, if not, a lady.

DEATH.—To dream of being dead and buried is a good omen; being buried alive, danger. Seeing a funeral pass a church, denotes that the dreamer will be invited to a ball or party.

BEAR.—Seeing one, signifies a rich and powerful enemy; unskilled, ridiculous, but audacious.

WOLF.—Having overcome one, predicts triumph; but if bitten by one, the reverse.

DOGS.—If belonging to a stranger, signifies the existence of dangerous enemies; to hear one bark is a bad omen.

CAT.—Killing one is a sign of capturing a thief; eating the flesh of one is considered a good omen; if fighting with one, and being scratched by its claws, it signifies sickness or affliction.

THE Peoples Mutual Accident Association, of Pittsburgh, Pa., will grant relief in event of accidents of all kinds, fatal or non fatal. New and original features with this association.

HUFMAN P. O., W. Va.

MESSRS. FLEMING BROS.— Gentlemen: I am glad to inform you that Dr. C. McLane's Celebrated Liver Pills are the best in use I believe, for liver, stomach, kidney and all other chronic diseases. I have been afflicted with all those diseases and they have relieved me more than all the remedies that I have used, and I have spent about two hundred dollars with the doctors in the last six years, and have used nearly all kinds of pills before I used these.

Yours truly, JAMES COONTS,
Hufman P. O., Barbor Co., W. Va.

MEADOWS OF DAN, Patrick Co., Va.

FLEMING BROS —Gentlemen: I have been using McLane's Liver Pills in my family, and find them very beneficial, and now ask what you will send them to me for per dozen boxes. I have almost constant use for them. I wish to get them. I want them for my family use only, as I am a farmer and don't wish to have to hunt for them every time I want them.

Please write me on receipt of this and let me know what you will do for me in this case.

Truly yours, &c.,
JOSEPH G. TERRY.

A LETTER FROM GERMANY.

SIEGEN, January 9, 1882.

Very esteemed sirs:

The praise your Liver Pills have called forth here is wonderful. After taking one and a half boxes of your genuine **DR. C. McLANE'S LIVER PILLS,** I have entirely recovered from my four years' suffering. All who know me wonder how I, who, for so many years, had no appetite and could not sleep for backache, stitch in my side, and general stomach complaints, could have recovered.

An old lady in our city, who has suffered for many years from kidney disease, and the doctors had given her up, took two of your Pills, and got more relief than she has from all the doctors. Yours truly,

J. VON DER BERG.

BEWARE OF IMITATIONS.

The genuine are never sugar-coated.

Every box has a red wax seal on the lid, with the impression: **McLane's Liver Pill.**

The genuine **McLANE'S LIVER PILLS** bear the signature of **C. McLane** and **Fleming Bros.** on the wrappers.

Insist upon having the genuine **DR. C. McLANE'S LIVER PILLS,** prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently, but of same pronunciation.

If your storekeeper does not have the genuine **DR. C. McLANE'S CELEBRATED LIVER PILLS,** send us 25 cents, and we will send you a box by mail, and a set of our advertising cards.

FLEMING BROS., Pittsburgh, Pa.

Prepare to paint and make things look clean;
Its coming now close on to spring.
Only just think what a few dollars will do—
Not only preserve your house, but make it look like new.
Ere it is too late my advice you should pursue,
Ever afterwards you won't regret it.
Remember my suggestions and see if you do.

Pioneer Paint is what you want to use,
In the end its the cheapest and best—all others refuse,
Or my advice will do you no good,
For no other paint will adhere to the wood
Or give the beautiful gloss, as it really should.
Pioneer Paint is sold on a guarantee strong
That it will not crack, peel or chalk for three years long.

Pioneer, its fame is known all over the land,
From the shore of the Atlantic to the Pacific sand.
One gallon will cover 250 feet square,
And you can always rely on finding it there
If painted on house, barn, bridge or the old arm chair.

The *Pioneer Prepared Paint*, it's needless to tell,
Can be purchased from all reliable dealers who have paints to sell.

So, if you wish to live happy and have your wife look like a saint
Go at once and purchase some *Pioneer Paint*
And paint your house, both outside and in;
But be careful and keep it well stirred so
As not to put it on too thick or too thin,
And if it cracks or peels off the manufacturers agree
To re-paint it again without any cost to thee.

What more could you ask? What more could they do?
So to use *Pioneer* is the right thing for you.
It will save you trouble and strife with your wife,
And you can live without fear of your life
Or that you would be struck on the head with the dish-pan
For buy other paint from the wrong man,
Which fate you would richly deserve
For not buying *Pioneer* when all needs it will serve. R. T. P.

STONES IN WASHINGTON MONUMENT.

Patriotic Inscriptions on Some Sent by the States.

The last stones in the sides of the Washington Monument having been laid and the preparations for putting the roof in position began, a study of the stones sent by the various States and cities of this country, and by a number of foreign nations, for position in the monument, is interesting. About half of the number contributed have already been put in position in the walls of the monument, and the remainder lie under a shed, the "lapidarium" at the monument grounds. Those used when the work was begun years ago were set in the walls inside the monument. The remainder are awaiting action. When the present engineering force took hold of the monument it was decided to put no more of the stones into the wall as it was being built, but to await the completion of the monument proper and then bolt the blocks to the inside of the walls at points just above the landings on the staircase.

This will probably be done after the roof is completed. The plan is to slice the front of each block off and bolt it securely to the walls as indicated above. It is probable, however, that not all the stones sent will be put into the monument, as there are many from societies now out of existence, and others of such character as to make their use of doubtful propriety. There is, for instance, one from some enterprising firm of stonecutters in New York, handsomely dressed and ornamented with some fine work bearing the name of the generous firm which contributed it.

There are numbers from Stone Cutters' Unions and other organizations. Of this class many have long since passed out of existence. Typographic Unions, Military and Fire Organizations, lodges of the various secret societies, and others of this sort are numerous. Of the 160 stones received it is probable that more than 100 will be placed in the inside of the monument in view of the visitors. All of the States and Territories but two or three have already sent stone, and the others are expected to follow before the work is completed. Many foreign nations are also represented in the collection. China, for instance, has sent a handsome block, bearing a long inscription in Chinese characters, recounting the virtues and heroic qualities of Washington, and after comparing him to China's greatest men, winds up by

PITTSBURG, Nov. 7, 1885.

I. R. Stayton, Esq., Secretary of the Peoples' Mutual Accident Association, 96 Fourth ave., Pittsburgh, Pa.

Dear Sir—I beg to acknowledge receipt of your letter of 3d inst., enclosing check for twenty-five dollars, being payment in full for one week's indemnity for an accident I met with Nov. 13th, the result of a fall. I wish to extend to yourself and the Board of Managers thanks for the courteous treatment, which I received, and for the promptness in adjusting my claim, which action has greatly increased my faith in Accident Insurance. and *your Company especially.* Trusting that the *Peoples' Mutual Accident Association* meet with the success they deserve, and pledging you my hearty support and good will, I am

Respectfully Yours,

D. N. RICHARD,

Special Agent, National Life Insurance Company, of Vermont.

The above letter will explain itself. Mr. Richards had taken out a policy only a few weeks previous to meeting with an accident, and we take this opportunity of calling the attention of the public to the special new features which the Peoples' Mutual Accident Association offer, providing a schedule for payment of losses by *partial disablement.*

Any information in regard to the plan and workings of the Peoples Mutual Accident Association will gladly be given by calling on or writing to the Secretary, I. R. Stayton, office 96 Fourth avenue, Pittsburgh, Pa. P. O. Box 1066.

saying that he was greater than any of them.

Japan also sends a stone. So does Switzerland. So do numerous other governments abroad. Great Britan is, however, conspicuous by her absence, as are also Germany and France. A block of marble sent by the Pope, appropriately inscribed, was the object of so much hatred in Know Nothing days that it was finally lost to the monument, having been broken in pieces and thrown in the Potomac by a band of disguised men, whose identity has never been revealed. One very interesting contribution from abroad is a block of lava from Vesuvious, sent by Wm. Terrell, of Georgia, when he was Consul. It is very heavy, 3½x1½ feet, of pale blue color, and strongly impregnated with sulphur. Besides the blocks from private sources and from associations now extinct, there are numbers from National and State Grand Lodges of Odd Fellows and Masons, some of them very handsome; those from the Masons especially so. Those from the cities of New York and Philadelphia are quite handsome.

The blocks sent by States have usually a State coat of arms upon them with some appropriate inscription. Some, however, have only the name of the State cut in large letters. This is the case with Maine. Minnesota and South

Carolina. Maine's block is of granite four by two feet, bearing the single word "Maine." South Carolina has only the name of the State with the State coat of arms. The block was defaced by some vandal hands after it arrived here, but has been repaired. Most of the Southern States were rather demonstrative in their expression of sentiment, and some of their inscriptions read rather curiously in the light of events which have transpired since they were presented. Louisiana's block, which was sent before the war, bears "The State of Louisiana, ever faithful to the Constitution and Union."

It is a curious fact that the stone thus sent and inscribed crumbled away after Louisiana had violated the pledge she had placed upon it. It has since been replaced by a block of marble bearing the same inscription. Georgia has on the inscribed stone which she sent, "The Union as it was, the Constitution as it is." Alabama's block, which is of native marble, bears the words, "A Union of equality as adjusted by the Constitution." Florida sends a stone bearing her coat of arms and inscribed, "Florida sees in his counsels safety, in his life an example, in his memory a perpetual bond of Union." Tennessee sends a beautiful block of native marble bearing the words, "The Federal Union, it must be preserved." The block sent by Kentucky has the figures of Clay and Crittenden, with hands clasped, cut in the face of the block: "Under the auspices of Heaven and the precepts of Washington Kentucky will be the last to give up the Union." Missouri has inscribed upon her offering:

"The tribute of Missouri to the memory of Washington and a pledge of her fidelity to the Union of the States." Illinois has the sentiment, "Illinois: State Sovereignty and National Union," which one might expect to see coming from a Southern State. Indiana furnishes the following: "Indiana knows no North, no South, nothing but Union." Ohio's limestone block has "The State of Ohio; the memory of Washington and the Union of the States. Sunto perpetua." Wisconsin's block is four by two feet, bearing the words, "Wisconsin admitted May 29, 1841." Minnesota is represented by small block of her famous pipe clay set in a handsome block of marble and bearing the single word "Minnesota." Iowa's offering is a handsome limestone block inscribed "Iowa: Her affections, like the river of her borders, flow to an inseparable Union." Brigham Young sent, long before his death, a stone bearing the Utah coat of arms, and inscribed "Holiness to the Lord," and below the single word "Deseret." A plain stone marked "Cherokee Nation," shows the regard of the Cherokees for the government. Virginia sends three blocks. One of them is labeled, "Westmoreland county, the birthplace of Washington;" another marked, "Virginia, who gave Washington to the country, gives this granite to his monument;" and the third inscribed, "From Otter's Summit, Virginia's loftiest peak, to crown the monument of Virginia's noblest son."

Texas Wit.

Sam Oppenheimer, of San Antonio, was one of the passengers on a San Saba stage that was robbed a few weeks ago. "Shell out your money or off goes the top of your head," remarked one of the robbers, holding a pistol under Sam's nose. "Three hundred dollars vash all I got, so hellup me schiminy grashus." "Hand 'em over." Sam did so, keeping back six dollars. "What are you keeping them six dollars, for?" mildly inquired the robber, pressing a pistol against Sam's head. "Mine Gott, don't you let a man take out two per cent. ven he advances money

1841-FORTY-FIVE YEARS-1886

NEARLY HALF A CENTURY having elapsed since the establishment of our business. it is gratifying to be able to announce that our goods in every line—Strictly Pure White Lead, Pioneer Prepared Paints, Colors and Varnishes—have always given the best of satisfaction, as an increased trade for same throughout the East, West and South will show, and as the main object we have always had in view has been to produce only the best article of the kind, we add that our goods everywhere command as high prices as any others for like uses, it having been demonstrated in thousands of instances that our Pioneer Prepared Paints have proven more economical than the cheap goods with which the market is so bountifully supplied. The cost of such goods must be somewhat higher than that of inferior articles, is indeed, but we assert without fear of contradiction that ours are the most economical; they cost less money in the end, owing to their durability and saving in repairs and renewing.

In painting, the fact that the first coat of paint is only a minor part of the expense is often lost sight of, and to be TRULY ECONOMICAL is to take into consideration all the points above mentioned. To the purchasers we would say the Pioneer Prepared Paint is excelled by none and equalled by few. Ask for it

The Religious Card Player.

A private soldier by the name of Richard Lee was taken before the magistrate of Glasgow for playing cards during divine service. The account of it is thus given in the English Journal:

Sergeant commanded the soldiers at the church, and when the parson had read the prayers he took the text. Those who had a bible took it out; but this soldier had neither bible or common prayer-book, but pulling out a pack of cards he spread them before him. He first looked at one card and then at another. The sergeant of the company saw him, and said:

Richard, put up the cards; this is no place for them.

Never mind that, said Richard.

When ths services were over, the constable took Richard a prisoner, and brought him before the mayor.

Well, said the mayor, what have you brought the soldier here for?

For playing cards in church.

Well, soldier, what have you to say for yourself?

Much, sir, I hope.

Very good; if not I will punish you severely.

I have been, said the soldier, about six weeks on the march; I have neither bible nor common prayer-book; I have nothing but a pack of cards, and I hope to satisfy your lordship of the purity of my intentions.

Then spreading the cards before the mayor, he began with the ace.

When I see the ace it reminds me that there is but one God.

When I see the deuce it reminds me of the Father and Son.

When I see the tray it reminds me of the Father, Son and Holy Ghost.

When I see the four it reminds me of the four Evangelists that preached—Matthew, Mark, Luke and John.

When I see the five it reminds of the five wise virgins that trimmed their lamps. There were ten, but five were wise and five were foolish, and were shut out.

When I see the six it reminds me that in six days the Lord made heaven and earth.

When I see the seven it reminds me that on the seventh day God rested from the great work which He had made and hallowed it.

When I see the eight it reminds me of the eight righteous persons that were saved when God destroyed the world, viz: Noah and his wife, his three sons and their wives.

When I see the nine it reminds me of the nine lepers that were cleansed by our Saviour. There were nine out of ten who never returned thanks.

When I see the ten it reminds me of the ten commandments which God handed down to Moses on the tables of stone.

When I see the King it reminds me of the Great King of Heaven, which is God Almighty.

When I see the queen it reminds me of the Queen of Sheba, who visited Solomon, for she was as wise a woman as he was a man. She brought with her fifty boys and fifty girls, all dressed in boys' apparel, for King Solomon to tell which were boys and which were girls. The King sent for water for them to wash. The girls washed to the elbows and the boys to the wrists; so King Solomon told by that.

Well, said the mayor, you have described every card in the pack except one.

What is that?

The Knave, said the mayor.

I will give your honor a description of that, too, if you will not be angry.

I will not, said the mayor, if you do not term me to be the knave.

The greatest knave I know of is the constable that brought me here.

I don't know if he is the greatest knave, but I know he is the greatest fool, said the mayor.

When I count how many spots there are in a pack of cards, I find three hundred and sixty-five, as many days as there are in a year.

When I count the number of cards in a pack I find fifty-two, the number of weeks in a year.

I find there are twelve picture cards in a pack, representing the number of months in a year, and on counting the tricks I find thirteen, the number of weeks in a quarter.

So, you se, a pack of cards serves for a Bible, Almanac, and Common Prayer Book.

Started Too High.

At a party, a young lady began a song, "The autumn days have come; ten thousand leaves are falling." She began too high. "Ten thousand," she screeched, and then stopped. "Start her at five thousand!" cried an auctioneer present.

Fillin' and Pullin'.

A farmer and his wife went into a dentist's. "How much do you charge for fillin' teeth?" asked the farmers "From two to five dollars." "And for pullin'?" "Fifty cents." "Mariar," he said, turning to his wife, "You'd better git it pulled."

OH! MY BACK!

How it pains me! And my limbs and breast ache so much that I can hardly stand it. I have had them so long, and have never yet found any help.

For these complaints, and for many others, there is a remedy that is sure, quick and permanent. Only try one bottle of

Van Deusen's Ready Remedy

and the cure will be like magic. It cures many pains—SORE THROAT, HEADACHE, NEURALGIA, TOOTHACHE, SPRAINS, BRUISES, CRAMPS, WOUNDS, DIARRHŒA, DYSENTERY—a sure and positive pain reliever.

In two years we have sold over four thousand bottles. This is proof that it is the only remedy that gives perfect satisfaction.

Only Costs 25 Cents a Bottle.

Far better than all the plasters and other remedies that are so freely offered.

All we ask is a trial bottle, and we well know that it will give you a quick and speedy relief. Sold everywhere,

Don't let druggists and others try to force you to take any other article. Many do so, because they make a greater profit on the article they recommend. Buy only VAN DEUSEN'S READY REMEDY.

VAN DEUSEN BROTHERS,

SEVENTH AVENUE HOTEL,

ELIAS J. UNGER, PROPRIETOR.

Enlarged and Refitted, Two Passenger Elevators.

Within three squares of Union Depot. PITTSBURGH, PA.

DIAMOND LINSEED OIL WORKS.

THOMPSON & CO.,

MANUFACTURERS OF

PURE LINSEED OIL,

Oil Cake and Oil Meal,

15, 17 & 19 WEST DIAMOND STREET,

(Near the Diamond.) **ALLEGHENY, PA.**

Oil Meal as Stock Food.

There is no better or cheaper food for **Milch Cows,** it increases the quantity and quality of milk more than any other feed. For fattening Beef Cattle it surpasses all other food, making the Meat more tender and juicy. No food known will fit **Cattle** as rapidly for market as Oil Meal. **For Horses,** a small quantity can be fed daily with valuable results, and for **Sheep, Hogs, Fowls,** etc., it is an excellent food, keeping them in a healthy condition, making fine palatable meats.

We manufacture by the **Old Process**—steam heat and hydraulic pressure. Well settled **Linseed Oil** and fresh ground **Oil Meal** always on hand. Send your orders to

THOMPSON & CO., Allegheny, Pa.

Be Kind to the Traveling Man.

He has a father perhaps, and a mother, who knew him in his innocent youth. Perhaps even now, in some distant village, fond hearts are beating for him, and sweet lips breathe love's dearest prayers for his welfare. Therefore lay him down tenderly, fold his his hands peacefully on his breast, and close his eyes gently as you put him to rest under the branches of the weeping willow, where the birds carol all through the summer days their softest songs, but plant him deep! plant him deep!

A NUT BROWN HAIR.

Pass the butter gently, Mabel,
Shove it lightly through the air,
In the corner of the dish, love,
You will find a nut-brown hair.
What fond mem'ries it awakens
Of the days ere we were wed,
When upon my fine coat collar
Oft was laid your little head.
Lovingly I stroked those tresses,
In the happy days gone by;
Now I strike them every meal time
In the butter or the pie.

72 THIRD AVE., PITTSBURGH.

SEYMOUR, Baylor Co., Tex.
April 18, 1880.

Messrs. Fleming Bros.—Sirs: Dr. C. McLane's Liver Pills being in such demand here, and my location 150 miles from the railroad or any wholesale store, I would like to get the agency to sell the Pills, and have you send me twelve dozen boxes at once. I have a drug store and engage in the practice of medicine. I have been selling your Pills, but cannot keep the market supplied. Please let me hear from you at once. If you wish a recommendation I will send it, or I refer you to any of the county officers or Postmaster.

L. S. WILSON.

P. S.—Send to my address at Seymour, in care of Moorhead & Co., Ft. Worth, Tex.

GENEVA POSTOFFICE
Polk Co., Tex.
July 3d, 1880.

DR. C. MCLANE, PITTSBURGH, PA.

Dear Sir.—I embrace the present opportunity of writing you a few lines to inform you of some facts in regard to your Liver Pills, and what they have done for suffering humanity in those terrible severe cases of flux. About eighteen months ago my brother and I had flux in our family. We both sent for a doctor, and the flux kept getting worse and worse. Brother's child died, and I do believe that him and his wife would both have died if it had not been for your pills, and the probability is mine would have died if it had not been for your pills again. About the first of May I had two cases of flux. I commenced with your pills at once, and did not do anything else, and that got well at once; but the great trouble is, we live so far from market that we cannot get them, and as I am a mighty good nurse, my friends are continually begging me to write for a gross of your pills at least. I have resolved to do so now. I humbly ask you for an agency, or send me on commission to sell for you. I can sell thousands here. They are also the best pills for ladies in a peculiar condition I have ever seen. If you think proper, send me twelve dozen boxes, or as many as you see proper to send. I vouch to you that I will sell them and send you the money. I do think that your pills are as much thought of here as any pills in the world. I could write you a whole sheet in commendation of your Pills, if it was necessary.

Likely it would not be out of place for me to write you something about how I stand in the country in which I live. I am a regularly ordained Deacon of the Baptist church. I discharge the duties of that office to the best of my ability. I am Superintendent of a Sabbath-school, the conductor of a prayer meeting, also a member of the Temperance Society, usurping the office of chaplain.

I am a member of the Grand Jury, and as I have got to be in Livingston on the fifth day of July, I will mail my letter.

D. G. HATCHER.

A ROMANCE.

HE WRITES:

What would I give to be with you, my love!
Kingdoms and palaces many, my dove!
Silver and gold would I give without end,
If even one hour with thee I could spend!

SHE WRITES:

Take the first train and come up to the Springs,
Then you can see me without all these things,
As far as I know, there's naught in the way—
The board here is fair at four dollars a day.

HE THINKS:

I'd fly on the wings of the morn—if I could:
But the wings of the morn will do me no good.
"Four dollars a day!" did you say, my adored?
I just lack four dollars to pay a week's board.

S. T. OLEN.

Capacity of Freight Cars.

Whisky	60 to 100 bbls

Computation of Interest.

To find the interest on any sum, muliply the principal by the number of days, and proceed as follows:

For FOUR per cent., divide by 90;
" FIVE " " 72;
" SIX " " 60;
" EIGHT " " 45;
" NINE " " 40;
" TEN " " 36;

If the principal is expressed in dollars and cents, point off four figures, and the result will be the interest in dollars and cents.

HOUSEHOLD RECIPES.

To Take Ink out of Boards.—Strong muriatic acid, or spirits of salts, applied with a piece of cloth; afterwards well washed.

Cup Pudding.—1 tablespoonful of flour, 1 egg; mix with cold milk and a pinch of salt to a batter. Boil fifteen minutes in a buttered cup. Eat with sauce, fruit, or plain sugar.

Curry Powder.—One tablespoonful of coriander seed and poppy seed, one tablespoonful each of turmeric, cumin seed, red chili, ground ginger and salt. Pound together and mix thoroughly.

Spiced Currants.—Make a syrup of three pounds of sugar, one pint of vinegar, two tablespoonfuls of cinnamon, two tablespoonfuls of cloves, and a half teaspoonful of salt. Add six pounds of currants, and boil half an hour.

Beef Cakes.—Chop some beef that is rare with a little fat bacon or ham. season with pepper, salt, and a little onion, mix well and form into small cakes. Fry them a light brown and serve with a good gravy made of soup stock thickened with brown flour.

Apple Pie.—Slice up one or more nice, tart apples in a saucer, sweeten with white sugar, and cover with a moderately thick slice of bread buttered slightly on the under side. When the bread is browned, the apples, if of a tender kind, and thinly sliced, will be done.

Crab-Apple Jelly.—Wash the fruit clean, put in a kettle, cover with water, and boil until thoroughly cooked. Then pour it into a sieve and let it drain; do not press it through. For each pint of this liquor allow one pound of sugar. Boil from twenty minutes to half an hour.

To Clean Brass Ornaments.—Brass ornaments that have not been gilt or lacquered, may be cleaned and a very brilliant color given to them by washing them with alum boiled in strong lye, in the proportion of an ounce to a pint, and afterward rubbing them with a strong tripoli.

To Prevent Logs and Planks from Splitting.—Logs and planks split at the ends because the exposed surface dries faster than the inside. Saturate muriatic acid with lime, and apply it like whitewash, to the ends. The chloride of calcium formed attracts moisture from the air and prevents the splitting.

TENISTIGO, Canada West, Ont.

Messrs. Fleming Bros.

Sirs: Your pills came all right, and I can say they are a good bilious pill. I have used a great many pills, but I can say Dr. C. McLane's Pills, manufactured by Fleming Bros., are genuine. And, gentlemen, you have my thanks in sending. I gave some of those pills to my neighbor for a trial. One of my neighbors got three pills. He said they did help him. He felt the next day like a new man. He wishes me to send for fifty cents' worth for him. So, gentlemen, I will do all I can to introduce Dr. C. McLane's Liver Pills, manufactured by Fleming Brothers.

Yours, with respect,

WM. H. DUGAN.

Fleming Bros.

Dear Sirs: Enclosed you will find one dollar, for which you will please send me more of your Dr. C. McLane's Liver Pills. I trust you have received the pay for the last two boxes I ordered and received. I would only say, they have done me more good than I could express. I feel much better now than I have for two years past. Yours truly,

REV. PHIL SPAETH,
West Sandlake, N. Y.

MYERS, Fla., Sept. 20, 1882.

Fleming Bros.,

It affords me pleasure to assure you that after using Dr. C. McLane's Celebrated Liver Pills for more than twenty years in my family, that I regard them as being superior to any I have ever used or have seen used. I have not had them constantly, and had to try others, and I have tried a good variety, but I have never had any to act as promptly, properly, and nicely as McLane's. I have used them on myself, wife and children, with the most gratifying results. For children, having used them on my own with such easy and happy effect, I would recommend them to one and all. These pills do the work—do it promptly, do it well, and leave no ill effects behind. As a bile remover, as a liver corrector, as a forerunner preparing the system for quinine, there is no pill or medicine equal to Dr. C. McLane's Celebrated Liver Pills. I expect to use them as long as I live, if they continue as good as they have been in the past. Yours truly,

E. H. GILES,
Pastor M. E. Church, South Myers' Station, Tampa District, Florida Conference.

In case of sick headache, biliousness, torpid liver, dyspepsia, and costiveness, "DR. C. MCLANE'S CELEBRATED LIVER PILLS" never fail to give relief—for both sexes and ages; they are compounded with regard to even the most delicate constitutions. None genuine without the signature of "Fleming Broths., Pittsburgh, Pa."

CLEARPOINT, ARK.

Messrs. Fleming Bros.

Dear Sirs: I have used your Dr. C. McLane's Liver Pills for a great many years, and find them the best pills I can get hold of. I use them as a preventive of sick and nervous headache. They are the best remedy I can get.

I remain as ever, yours, &c.,

A. H. MCDONALD.

AVOID COUNTERFEITS! Send us 25 cents and we will send you by return mail a box of the genuine Dr. C. McLane's Celebrated Liver Pills and eight handsome cards. Over fifty millions boxes have been used by the people of the U. S. What better certificate could they have?

FLEMING BROS., Pittsburgh, Pa.

Yankee Shaving Soap.—Take three pounds white bar soap, 1 pound castile soap, 1 quart rain water, ½ pint beef's gall, 1 gill spirits of turpentine. Cut the soap into thin slices and boil five minutes after the soap is dissolved; stir while boiling; scent with oil of rose or almonds. If you desire to color it, use ½ ounce of vermilion.

Good Cement.—Stir to a thick batter with silicate of soda, twelve parts Portland cement, six parts slaked lime, six parts fine lead, one part infusorial earth. Very excellent for marble and alabaster. The cemented object need not be heated. After twenty-four hours the fracture is firm, and the place can with difficulty be found.

Chicken Patties.—Chop very fine and dry, poorest bits left from baked chickens; season carefully with pepper, salt and a little chopped celery. Make a light puffed paste, roll a quarter of an inch thick, cut with a neatly shaped paste cutter; lay a narrow strip of paste all around; then put some of the mince on the paste; cut another piece the same size and lay over. Boil fifteen minutes.

Glycerine and Rosewater mixed in equal parts, make a good "finish" for the hands after washing, and is a useful bottle to keep on the toilet-table. Very rough or dry hands are improved by anointing with mutton suet at bedtime and drawing on a soft, loose pair of old white kid gloves. Whatever supplies the place of natural oil on the hands will help to keep them in good order in cold weather.

Vinegar.—Nearly every family uses from five to thirty gallons of vinegar during a year, and it is very important that they know they are using good vinegar. Use none but good wine, cider, or malt vinegar. A great deal of the cheap vinegar that is sold in all cities is a mixture of sulphuric acid and water, with, perhaps, a little vinegar, and of course is poisonous if used in very large quantities.

Tea-Leaves. — Save the spent tea-leaves for a few days then steep them in a tin pail or pan for half an hour; strain through a sieve, and use the tea for all varnished paints. It requires very little elbow polish, as the tea acts as a strong detergent, cleansing it equal to new. It cleans windows and sashes and oilcloths; indeed any varnished surface is improved by its application. It washes window-panes and mirrors much better than water, and is excellent for cleansing black walnut and looking-glass frames. It will not do to wash unvarnished paints with it.

WORKS AND SALESROOM,

83, 86, and 88 Irwin Avenue, Allegheny City, Pa.

☞Send for Catalogue and Price List.

Cider Apple Jelly.—Cut good, ripe apples in quarters, put them in a kettle, and cover them with *sweet* cider, just from the press. (It should, if possible, be used the day it is made—or at any rate, before it has worked at all). Boil until well done, and drain through a sieve. Do not press it through. Measure the liquor, and to each pint add one pound of sugar. Boil from twenty minutes to half an hour.

To Starch Shirt-Bosoms and Collars.—Pour a pint of boiling water upon two ounces of gum arabic, cover it and let it stand over night. A tablespoonful of this gum arabic water, stirred into a pint of starch made in the usual manner, will give to lawns, either white or printed, a look of newness when nothing else can restore them. To every pint of starch add a piece of spermaceti candle the size of a chestnut.

Seed Cake.—Beat to a cream one cup of butter and two cups of sugar. Add three tablespoonfuls of sweet milk, a little salt, and vanilla or lemon, to the taste, with two tablespoonfuls of caraway seeds. Stir in flour in which a teaspoonful of baking powder has been sifted, and make the cake stiff enough to roll. Roll out thin, cut in round cakes, and bake in a moderate oven. This rule makes about seventy-five cakes.

Oyster Croquettes.—Mince fifty small oysters, mix them with three-quarter pound of fine, dry bread crumbs, ditto of beef suet chopped very small; add a salt spoonful of salt, ditto of pepper, twice as much pounded mace and half a small nutmeg. Moisten and blend the whole with two raw eggs and set aside in a cool place. Mould into croquettes by the aid of a wine-glass and well floured fingers; throw them in boiling water for three minutes, drain and let them cool, then fry in butter as plain croquettes. It is well to poach and taste a small portion before setting aside the whole to cool, so that the seasoning may be heightened if desired.

Preserved Quinces.—Pare and quarter the fruit, and take out all the cores and the hard places around them. Boil the fruit in clear water until tender, then spread it on towels to dry. For one pound of fruit allow half a pound of sugar, and one pint of water for three pounds of sugar. When the syrup is boiling hot, put in the fruit, and let it cook very slowly; or, set it back on the stove so that it hardly cooks at all, and keep it on for an hour or more, if you can without cooking to pieces—as the longer it cooks the brighter red color it will be. Put it in jars and strain the syrup over it, as with other fruits.

Rice Pudding.—Take one teacupful of raw rice, one onion, one cup broth, one cup milk, one egg, one cup chopped meat, pepper and salt. Boil the rice with the onion in the broth, adding water, when it is soft, remove the onion; add a raw custard made of the milk, egg, &c. Mix well with the meat, put into a greased mold, set in a pan of boiling water and bake, covered, till firm. About forty-five minutes should be enough.

Finger Biscuit, otherwise called lady fingers, are made by beating the yolks of four eggs with half a cup of sugar to a froth. Beat the whites very stiff and dry, and stir in lightly, adding three-quarters of a cup of lightest sifted flour. Drop from a paper horn or pastry bag on a sheet of glazed letter paper and bake, or rather *dry* in a slow oven for fifteen minutes. Creamery flour instead of plain makes a rich biscuit, and requires a hotter oven.

Sweet Macaroni.—Break up a quarter of a pound of the best macaroni into small lengths, and boil it in two quarts of water, with a large pinch of salt, until perfectly tender; drain away the water, add to the macaroni in the stew-pan a teacupful of milk and a quarter of a pound of sifted lump sugar, and keep shaking over the fire until the milk is absorbed; add any flavoring, and serve. Stewed fruit may be served with the macaroni.

Chicken Pie.—Stew chickens till tender, season with one-quarter of a pound of butter, salt and pepper; line the sides of a pie-dish with a rich crust, pour in the stewed chicken and cover loosely with a crust, first cutting a hole in the center. Have ready a can of oysters; heat the liquor, thicken with little flour and water, and season with salt, pepper and butter the size of an egg. When it comes to a boil, pour it over the oysters, and, about twenty minutes before the pie is done, lift the top crust and put them in.

Terra Alba, or white earth, is now very extensively used to adulterate many articles of daily consumption, such as flour, sugar, confectionery, cream of tartar, baking powder, soda, etc. Terra alba costs about half a cent per pound, and by using it in articles that sell from four cents to sixty cents per pound it allows a very nice profit. Cream of tartar sometimes contains as high as sixty per cent. of terra alba. Common cooking soda is often adulterated with terra alba, and it is a very common adulteration in cheap baking powders.

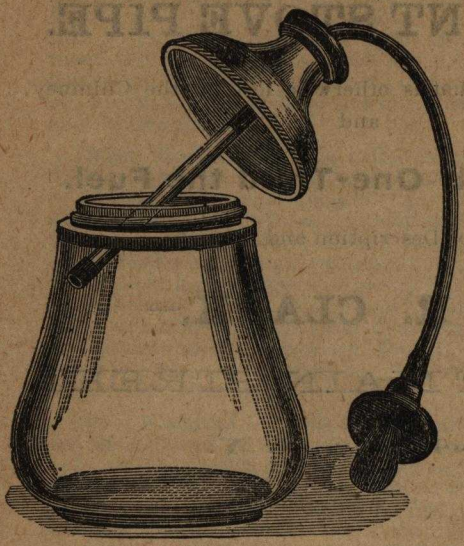
Pickled Cucumbers.—Six hundred small cucumbers, two quarts of peppers, two quarts of small onions. Make enough brine to cover the pickles, allowing one pint of salt to four quarts of water, and pour it, boiling, over the pickles. Let them stand until the next morning; then pour off the brine, throw it away, make a new one, and scald again. The third morning scald this same brine and pour it over again. The fourth morning rinse the pickles well with cold water, and cover them with boiling vinegar. Add a little piece of alum and two tablespoonfuls each of whole cloves and allspice, tied in a bit of muslin, if you like the spice.

Face Preparations.—Never use any preparation on your face that contains any of the preparations of lead, zinc, or bismuth, for they all paralyze the nerves of the skin, and in time give the skin the appearance of tanned leather. The oxide of bismuth is used a great deal in face preparations, for it produces a nice appearance at first, but it soon paralyzes the nerves of the skin so as to give the face a wrinkled and leathery appearance, and the person is obliged to use more and more of it or some other preparation to cover up the defect.

Pulverized starch, carbonate of magnesia or powdered French chalk are as harmless, perhaps, as anything that is used on the face.

What an Egg Will Do.—For burns and scalds nothing is more soothing than the white of egg which may be poured over the wound. It is softer as a varnish for a burn than collodium, and being always on hand, can be applied. It is also more cooling than the sweet oil and cotton which was formerly supposed to be the surest application to allay the smarting pain. It is the contact with the air which gives the extreme discomfort experience experienced from the ordinary accident of this kind, and anything that excludes the air and prevents inflammation is the thing to be at once applied. The egg is considered one of the best of remedies for dysentery, Beaten up slightly with or without sugar, and swallowed at a gulp, it tends, by its emollient qualities to lessen the inflammation of the stomach and intestines, and, by forming a transient coating on these organs, to enable Nature to resume her healthful sway over a diseased body. Two, or at most three eggs per day would be all that is required in ordinary cases; and since egg is not mere medicine, but food as well, the lighter the diet otherwise and the quieter the patient is kept the more certain and rapid is the recovery.

COMMON SENSE NURSING BOTTLE!



W. J. Riggs, M. D., Allegheny, Pa., writes: "The 'Common Sense' is the only nursing bottle a physician can recommend without qualification. It is nearer perfect than any other bottle in the market. No bottle is fit for such purpose except one that admits of every portion of its interior being easily reached by wash-rag or fingers. The Common Sense Nursing Bottle does that, and for that reason deserves to supersede all others."

Sold by Druggists and Dealers Everywhere.

William Hughes, Sole Manufacturer, Allegheny, Pa.

Soft Gingerbread—Two and a half cups of flour, one-half cup of molasses, one-half cup of brown sugar, three-fourths of a cup of loppered milk, one teaspoonful of soda sifted three times with the flour, one teaspoonful of ground ginger, one-half teaspoonful of cinnamon, one tablespoonful of butter. Mix sugar, butter, molasses and spice together, set in the oven, or other warm place, until lukewarm. Then beat hard five minutes, until the contents of the bowl are light and foamy; put in milk and soda, beat two minutes longer, and bake in patty-pans, muffin-tins, or in two large "cards." This gingerbread is best when warm, although it will keep fresh for a day or two. Eat as a dessert with cheese or chocolate.

Chocolate Cake.—One and a half cupfuls sugar, half cupful of butter, half cupful milk, one and three-forths cupful flour, one-fourth pound baker's chocolate, three eggs, one teaspoonful cream tartar, half teaspoonful soda. Scrape the chocolate fine, add five table spoonfuls sugar to it in addition to the other sugar, beat the butter to a cream, gradually add the sugar, beating all the while; add three tablespoonfuls boiling water to the chocolate and sugar, stir over the fire till smooth and glossy, then stir into the beaten sugar and butter; add to this the well beaten eggs, then the milk and flour in which the cream tartar and soda are mixed. Bake twenty minutes in a moderate oven. This will make two sheets. For the icing: Whites of two eggs, one and a half cups powdered sugar, six tablespoonfuls grated chocolate, one teaspoonful vanilla. Put chocolate and sugar in saucepan with two tablespoonfuls hot water; stir over a hot fire. Beat whites stiff and add sugar and chocolate.

Apple Trees.

Bands on apple trees are a positive detriment, unless they are properly attended to. The bands make good breeding places for the moths if not examined every seven or nine days. By all means do not encourage them by neglecting the bands if they are used.

Hogs and Blackberries.

The best way to rid fields of the blackberry is to let the hogs root them up. They are very fond of the root of the bark, although it is bitter and instringent. In a neighborhood where hog cholera was prevalent it was asserved that those who had the run of a blackberry-infested field were not sick in any way.

Poultry.

Clean the poultry house and sprinkle with ashes or plaster. If lice abound, apply kerosene in small amounts to the perches, from which it will spread to the birds in effective quantities.

Ducks and Chickens.

It is not proper to keep ducks and chickens in the same yard. The broad bill of the duck enables it to gormandize, and being a voracious feeder, it is likely to deprive other fowls of their share of feed.

RED ANTS OR BLACK ANTS are very troublesome in some sections of the country. On sandy soil especially red ants are a great pest, and about the best thing to drive them away is to sprinkle air slaked line around their places of resort. To keep them out of sugar, tie a small piece of camphor in a cloth and put it in your sugar box or barrel, and they will leave at once.

TO EXAMINE THE BOTTOM OF A WELL.—Take a looking-glass and place in such position as to reflect the light down the well.

PEOPLES Mutual Accident Association has the endorsement of some of the best citizens of Pittsburgh and Allegheny.

Too Late for the Train.

At a country hotel: A traveler retires to his room, leaving word that he is to be called for an early train. In the morning he is aroused from a sweet sleep by the porter's knocking vehemently at the door. "Who's there?"

"Are you the gentleman that was to be called for the 5:15 train?"

"Yes. All right!"

"Then you can go to sleep again, sir; the train's gone.

LINSEED MEAL AS CATTLE FOOD.

It is becoming an important subject to the American farmer, and is receiving at the present time more attention than ever before. The farmers of England and Germany have for years given linseed meal the first choice as a feed, and hence the larger proportion of all we produce is gone to those countries. The simple statement of this fact ought to be a sufficient proof of the value of linseed meal, and the best argument in favor of its home use. Baussengault, the distinguished French chemist, estimates the nuitriment in 100 pounds of linseed meal as equal to 300 pounds of oats, or 318 pounds of corn. The experience of those who have fed it in this country fully confirms this estimate, and it is daily growing in popularity wherever introduced.

The reason why linseed meal is the most nutritious of all foods is because it contains the largest amount of nitrogenous substance. The feeding value of any food is based by all scientific men on the amount of albuminoids or nitrogenous matter it contains.

In ordinary food, such as corn, oats, bran and hay, there is an excess of starch, sugar and cellulose, which are classed under the head of carbo-hydrates, The following table, compiled from analysis of eminent agricultural chemists will show the relative proportion of albuminoids to carbo-hydrates in the various kinds of food:

FOOD.	Water.	Albuminoids.	Fat.	Carbo-hydrates.	Fiber.	Ash.	Manurial Value Per Ton Fed.
Linseed Meal	12.0	34.3	2.0	35·5	9.6	6.6	$18.70
Oats	13.9	12.9	9.0	53.8	10.8	3.5	5.60
Indian Corn	11.4	10.4	5.1	68.5	3.0	1.6	6.07
Clover Hay	16.0	12.3	2.2	38.2	26.0	5.3	3.64
Meadow Hay	14·3	9.7	2.5	41.0	26.3	6.2	3.80

As a milk and butter producer linseed meal has no equal. It not only increases the flow of milk, but adds greatly to its richness in cream. With a cow accustomed to corn meal, bran, shorts and the like, the increase will be from one to two quarts at each milking within twenty-four hours after beginning with linseed meal. A cow, to be able to give a full flow of milk, must have food richer in nitrogen than would be reduired for any other animal, since milk itself is composed largely of albuminoids, and this can only be supplied from food containing this substance. The first demand of a cow upon the nitrogen of food is to supply waste of tissue, and only the surplus will go to milk.

As a fat and flesh former linseed meal stands first among foods. It has been demonstrated in the Rothamsted experiments, that with a mixture of equal parts of linseed meal and corn meal a hog will gain one pound for every four and one-half pounds fed.

The manurial value of the offal from animals is very high where linseed meal has been used. In England, the value per ton after passing through the animal, is estimated at $18, which, of course, is too high for this country, but probably $10 per ton would be a fair estimate of its value to the American farmer.

The effects of nitrogenous food, such as linseed meal, may be briefly summed up as follows:

1. Fed with straw or other coarse fodder they acquire a value as food not attainable in any other way.
2. They add great value to the dairy.
3. They lay on flesh and fat rapidly.
4. They promote a healthy activity in all the organs.
5. They increase the fertility of the soil by enriching the manure of the animals fed with them.
6. They prevent disease by keeping the organs in a healty condition. Linseed meal has been frequently used in hog cholera and has never failed to prevent its spread.

Linseed meal is growing rapidly in favor among owners and breeders of horse flesh.

1. The waste is small, suiting the small gut capacity of the horse.
2. It is easy of digestion, enabling horses to be used sooner after eating.
4. Being a cooked food (having been subject to a steam heat of 400 degrees) the germ has been destroyed and there is no danger of colic.
4. Worms are entirely eradicated by its use.
5. There is no danger of scouring.
6. It is cooling and gives the horse a glossy coat and flexible hide.

It is almost needless to say that in order to derive much benefit from the use of linseed meal it must be fed in quantity. At least one-half of all an animal consumes may safely and profitably be linseed meal.

PROTECT yourself in case of accident by securing a certificate in the Peoples Mutual Accident Association. See their advertisement.

A bald-headed, consequential Moneybags was dilating recently upon the fact of his being a "self-made man," when a bystander remarked—"If you are a 'self-made man,' why didn't you put some hair on the top of your head?" He wilted.

MANUFACTURERS OF

Firmin's English Blue Black

WRITING FLUID,

Railroad Scarlet Ink, for Ruling, Copying, &c. Also Blue Black Copying Ink for office use.

Jones Avenue, Pittsburgh, Pa.

First Premium and Diploma awarded at Pennsylvania State Fair, 1882. Diploma awarded by Industrial Exhibition Association, at Toronto, Canada, in 1882.

TESTIMONIALS.

PITTSBURGH, PA.

We have used Firmin's Ink in our College for several years, and find it superior to any other we have tried. It will not thicken, flows freely, and is of permanent color. We can recommend it as a good business ink.

P. DUFF & SONS.

GERMAN DEPARTMENT, METROPOLITAN LIFE INSURANCE CO.,
NEW YORK, October 19, 1881.

MR. BENJAMIN FIRMIN;—Dear Sir: It gives me pleasure to say that your Ink has given us perfect satisfaction, and that I consider it by far the best Writing Ink made in this country. Truly yours, ISAAC I. CAHEN.

OFFICE OF SUPERINTENDENT OF PUBLIC SCHOOLS.

I have been using Firmin's Blue Black Writing Fluid for the past twelve months, and I consider it superior to any other I have used, and to those desiring a good commercial Ink, I cheerfully recommend it as the best.

GEO. J. LUCKEY, Supt. Schools, Pittsburgh, Pa.

The Fluid has been used on the following Railroads for years: Pittsburgh, Cincinnati & St. Louis Railroad, Pittsburgh, Fort Wayne & Chicago Railroad, and Pennsylvania Company; also P. & L. E. R. R.

A Pair of Hard-Baked Old Sinners.

A man with a grip-sack in his hand halted before a Detroit fruitist and priced a choice variety of peaches. When told that they were twenty cents a dozen he whistled to himself, walked softly around, and finally asked—

"Are you a Baptist?"

"Hardly."

"Neither am I. I didn't know but that if we belonged to the same denomination you'd throw off a little. Do you lean on the Methodists?"

"Can't say that I do."

"That's my case. I never did take much stock in the Methodists. Twenty cents a dozen is an awful price on those peaches, considering how tight money is. I expect you are a Universalist, eh?"

"No."

"Neither am I. Can't you say fifteen cents for a dozen of these?"

"Hardly,"

"Aren't you an Episcopalian?"

"No, sir."

"Neither am I; but I was afraid you were. I've been a sort o' looking you over, and I shouldn't wonder if you trained with the United Brethren. Come, now, own up."

"I never attend that church," was the steady reply.

"Nor do I, either. Say, what are you, anyhow?"

"I'm a hard-baked old sinner."

"No. Whoop! That's my case to a dot! I'm called the wickedest man in Washtenaw county. I knew there was a bond of sympathy between us, if we could only find it out. Now do you say fifteen cents for a dozen?"

The fruit dealer counted them out without further objection.

What Our Coins Weigh.

One million dollars in gold weighs 3,685 5-7 pounds avoirdupois; 1,000,000 trade dollars weigh 60,000; $1,000,000 of 412½ grains weighs 58,928 4-7; $1,000,000 in fractional coins weighs 55,114 2-7; $1,000,000 in five cent nickels weighs 220,457 1-7; $1,000,000 in three cent nickels weighs 142,857 1-7; $1,000,000 in one cent pieces weighs 685,714 2-7. A coinage of 4,000,000 of the new silver dollars per month would amount in a year to 2,838,571 3-7 pounds, or over 1,414¼ tons, and if the pieces were laid side-by-side they would form a continuous string 1,136 miles in length.

"Mamma!" cried a five-year old girl, "I started to make my doll a bonnet, and it's come out a pair of pants."

NOTES FOR LADIES.

Household Hints.

Currants, gooseberries, sour cherries and plums all may be used in making water ices.

To keep ice from melting when the ice box is not full, wrap newspapers around it.

If a little powdered sage is mixed with pepper and salt and is scattered over porksteak while it is cooking, it will give an agreeable flavor and will lessen the purely greasy taste so objectionable to most people.

Plain white towls may be made ornamental by placing two rows of drawn work at each end. The work may be fastened with red, or blue, or with white. The white gives a little nicer look to the towel than the colored. Overcast the edge just above the fringe.

To make paper adhere to tin is sometime a housekeeper's wish, and affliction also; it may be done by making a paste of gum tragacanth and water—to which add a few drops of oil of vitriol. The druggist of whom you purchase the material will direct you in regard to quantity.

A most delicate dish is made by following the directions for making boiled custard or "floating island." Let it become perfectly cold; just before use slice bananas very thin, and heap in the custard dish. Put the whites of the eggs on the top over all. This is simply delicious.

Green tomatoes fried are preferred by some people to the egg-plant, and it may well take its place; cut the outer slices off, and then cut the inner part in slices about half an inch thick, roll them in flour, and fry in butter; sprinkle pepper and salt on them. This may be used as an entree or a garnish with meat of any kind.

New potato pie is a novelty. Grate a teacupful of potato; to this quantity allow one quart of sweet milk; let the milk come to a boil, then stir in the grated potato; when cool add three well-beaten eggs, sugar and flavoring to suit the taste; nutmeg or cinnamon are the most suitable. Bake with under crust only, and eat while fresh.

To give soup a peculiarly appetizing favor and a brown color, fry some breakfast bacon, and in the fat obtained from this frying brown sliced vegetables, which are to be added to the soup. The pieces of bacon may also be allowed to boil with the soup stock. A very simple way to make coloring for a soup is to put half a pound of sugar in a sauce-pan, with a table-

spoonful of water. Set it on the stove until the sugar is melted; then add half a pint of water. Let it boil a few minutes, strain it, and use a little to color clear soup.

About the best way of solving the scrap-book question is to get a number of the long, flat boxes that spools of thread come in; into each of these put scraps relating to a certain subject, label the box in large clear letters on the end, put these boxes on a shelf laid one upon another so that you can see what and where is the needed scrap. This is the simplest and best known plan and is far more convenient than the scrap-book proper, or the envelope, and the gain in time from its practice is wonderful.

To make a gooseberry jam, stew the berries in a little water, put them through a coarse sieve, put them back into a kettle, add three-quarters of a pound of sugar to each pound of the stewed berries. Boil for about three-quarters of an hour, and they will certainly burn. You can easily determine whether a jam requires more boiling by taking a small quantity out on a saucer. If it looks bright and glistening, and no water-like juice surrounds it on the saucer, it is safe to infer that it is done.

A very effective ornamentation for a small sofa is made by taking a strip of satin plush, or of velvet, about five inches wide, and nearly the length of the sofa itself; on this embroider a vine in some distinct and quite open work pattern. When this is done put a narrow strip of similar material but of a different color around it as a plain border. Line it with stiff cloth, and apply it to the sofa with unseen and immovable pins. It should not be placed in the center of the seat, but be drawn forward so that it is just above the puff or band of plush which finishes the sofa cushion.

The cost of stamping articles that are to be embroidered is so great that many a woman gives up doing the pretty work her soul loves for that reason. The little patterns which can now be bought for a few cents a yard, or by the piece, and which with one artistic stroke of the flat-iron may be transferred perfectly and with clearness to any material are a great boon. A lovely table spread was stamped in this way. The spread was cardinal or deep crimson felt; the pattern stamped upon it was of oak-leaves and holly berries. This was embroidered with etching silk, and was very handsome, and comparatively cheap. A pretty

mantel lambrequin was worked in the same style, and was finished across the bottom with a narrow band of plush, and with small tassels.

Blackberry cordial is one of those home-made medicines that used to win renown for our grandmothers. This was considered a most excellent remedy for diseases of the summer. Cook half a bushel of blackberries until the juice seems to be all extracted, then put the berries and juice into a flannel bag, squeeze and press all the juice out, put it into a preserving kettle. Make a little muslin bag in which to put the spices, one-quarter of a pound of allspice. two ounces of cinnamon bark broken into bits, two grated or broken nutmegs, and two ounces of cloves are required. To one quart of juice add one pound of sugar. Cook very slowly; let it become heated gradually, then boil for from ten to fifteen minutes. After this has cooled add the purest brandy you can buy in the proportion of one pint to three pints of juice. Put into bottle and seal. It is ready for use immediately, though age improves it.

—A confectioner has two big cards in his window. On one is inscribed "Girls Wanted;" and on the other "Taffy." He evidently knew how to capture the girls.

Little Nell: "Why, mamma, the sky is just as blue to-day as it was yesterday."

Mamma: "Well, why shouldn't it be, pet?" "It rained last night." "What of that?" "You said blue wouldn't wash."

"Papa," said the little daughter of a clergyman, recently, "If God tells you what to write in your sermon, why do you so often scratch it out again?" The clergyman changed the subject by asking her how she liked her new doll.

A teacher of a Sunday-school recently asked her pupils the following question, expecting "sin" for an answer: "What, children, causes the most trouble and misery in the world?" For a time no one answered; but finally a small, bright looking boy held up his hand and gravely said, "skeeters."

THE Board of Directors of the Peoples Mutual Accident Association of Pittsburgh, is composed of well known business men of Pittsburgh and Allegheny, and their business integrity is a guarantee of honest management. It is confidently believed from the experience of the business in this country and England for years, that a $5,000 certificate with $25 weekly indemnity will not cost exceeding from ten to twelve dollars annually, including both Loss and expense Fund.

Decorative Hints.

Beautiful effects may be produced upon velvet by using liquid dyes for painting instead of the tube paints commonly employed. The work is much smoother and the plastered effect that the oil colors give is thus avoided.

If you wish to convert your faithful timepiece into a thing of beauty, and it chances to be small, you may do so in the following manner: Take a pretty shaped cigar box and cut a hole in one side for the face of the clock to show through and cover the box with plush that will harmonize with your room. If you are skillful with the needle, throw a rosebud or other flower in the corner and the effect will be greatly brightened.

White face shoulder capes are very stylish and pretty. The yoke is cut out of figured piece lace and the high sleeve effect is given by fulling row after row of lace to a foundation the right shape. The lower row, however, extends all the way round, forming a border for the cape.

It is not considered good taste to use parts of two sets of colored dishes on the table at once; but a half dozen different kinds may appear in turn as the different courses are served.

A charming fancy for hat rack is the trunk of a tree with the branches cut off the limbs and the limbs cut back to convenient length for pegs. It may be varnished or not, according to taste, but in either case it is very pretty and novel.

"Mamma," said the small boy, "that young man that comes to see Edith is awful funny." "Why, child?" "Because he puts his watch in water." "Nonsense!" "Yes he does, 'cause I heard him telling another man down the street this afternoon that he couldn't go with him because he had to go and put his watch in soak."

An agricultural journal says that "wormy apples will not keep as well as those which are sound." That depends. Place a basket of wormy apples and another of sound ones within reach of a dozen boys, and the wormy ones will remain long after the sound ones have disappeared.

At a party in Camden on New Year's eve a young lady began a song, "The Autumn days have come. Ten thousand leaves are falling." She began too high. "Ten thousand!" she screamed, and then stopped. "Start her at five thousand," cried an auctioneer present.

THINGS WORTH KNOWING.

1. That fish may be scaled much easier by dipping into boiling water about a minute.
2. That fish may as well be scaled, when desired, before packing down in salt, though in that case do not scald them.
3. Salt fish is quickest and best freshened by soaking in sour milk.
4. That milk which is turned or changed, may be sweetened and rendered fit for use again by stirring in a little soda.
5. That salt will curdle new milk: hence, in preparing milk porridge, gravies, etc., the salt should not be added until the dish is prepared.
6. That fresh meat, after beginning to sour, will sweeten if placed out doors in the cool over night.
7. That clear boiling water will remove tea stains and many fruit stains. Pour the water through the stain, and thus prevent its spreading over the fabric.
8. That ripe tomatoes will remove ink and other stains from white cloth, also from the hands.
9. That a tablespoonful of turpentine boiled with your white clothes will aid the whitening process.
10. That boiled starch is much improved by the addition of a little sperm or a little salt, or both, or a little gum-arabic dissolved.
11. That beeswax and salt will make your rusty flatirons as clean and smooth as glass. Tie a lump of wax in a rag and keep it for that purpose. When the irons are hot rub them first with a wax rag, then scour with a paper or cloth sprinkled with salt.
12. That blue ointment and kerosene, mixed in equal proportions, and applied to bedsteads, is an unfailing bedbug remedy, and that a coat of whitewash is ditto for walls of a log house.
13. That kerosene will soften boots or shoes which have been hardened by water, and render them as pliable as new.
14. That kerosene will make the teakettles as bright as new. Saturate a woolen rag and rub with it. It will also remove stains from clean varnished furniture.
15. That cold rain water and soda will remove machine grease from washable fabrics. Every one of the above recipes are unfailing.

It is more honorable to acknowledge our faults than to boast of our merits.

GRAINS OF GOLD.

Experience is a dear teacher.

Years know more than books.

Difficulties give way to diligence.

Deliberate slowly, execute promptly.

Discreet steps make speedy journeys.

Better be alone than in bad company.

Best men are often moulded out of faults.

Disinterestedness is the very soul of virtue.

The sense of death is most in apprehension.

A great mind is formed by a few great ideas.

Buyers want an hundred eyes, sellers none.

Any truth, faithfully faced, is strength in itself.

The greatest wealth is contentment with a little.

Habit, if not resisted, soon becomes necessity.

There is no power of genius that can do the work of toil.

To some kinds of men their graces serve them as enemies,

There is no absolute beauty but the abstract one of perfect goodness.

The vegetable which young love is always ready for, is to-mate-oh.

What title with the prefix "I," is a declaration of lunacy? I mad-am.

Pride is increased by ignorance; those assume the most who know the least.

Why should the male sex avoid the letter A? Because it makes men mean.

False modesty is like a door ostentatiously padlocked, but broken at the hinges.

There is no knife that cuts so sharply, and with such poisoned blade, as treachery.

Religion is not a thing of noise and spasm, but of silent self-sacrifice and quiet growth.

If you court a young woman, and you are won, and she is won, what will you become? One, of course.

What is the difference between an industrious person and a lazy one? The first makes time, the second takes it.

To wish to do without our fellows and to be under obligations to no one, is a sure sign of a soul void of sensibility.

A plant has been found that cures bashfulness. It should be promptly tried on the man who leaves the hotel by the back window because he is too diffident to say good-bye to the cashier.

A prominent physician of the Hub is quoted as saying: "If a child does not thrive on fresh milk, boil it." Boiled children is evidently the latest Boston craze, but will never become popular.

That was a terrible threat of a Chicago pugilist to his antagonist: "I'll twist you around your own throat until there's nothing left of you but the ends of your shirt-collar sticking out of your eyes."

Some singers at a concert were rather startled the other evening by finding that the selection, "When wearied wretches sink to sleep," had been printed on the programme, "When married wretches," etc.

Let a man go home at night wearied and worn out by the toils of the day, and how sweet is a word dictated by a sweet disposition. It is sunshine falling on his heart. He is happy, and the cares of life are forgotten.

A young man, violently in love with a pretty seamstress, being asked what business he was in, sighed deeply and said, "I am developing a new sewing machine attachment."

A little girl of three explains the Golden Rule to her sister: "It means that you must do everything I want you to, and you mustn't do anything I don't want you to."

Young man to "Clem," the druggist: "Can you give me anything to remove superfluous hair?" Clem (thoughtfully pulling his fierce moustache): "Why don't you get married?"

"Where shall we find our teachers?" asked an educational exchange. Well, many of the sweet girl teachers may be found sitting on the sofa with nice young men any time after 8 P. M.

Mrs. Langtry is said to have in her palace car, besides other curiosities which she has gathered during her travels, two real scalps, which were purchased for her in the West a year ago.

Rose Coghlan, the actress, smokes cigarettes, and is said to be the only woman in America who can puff rings of smoke from her mouth. Rose is undoubtedly a very accomplished woman.

MOTHERS READ.

GENTS:—About nine years ago I had a child two years old and almost dead. The doctor I had attending her could not tell what ailed her. I asked him if he did not think it was worms. He said no. However, this did not satisfy me, as I felt convinced in my own mind that she had. I obtained a bottle of **DR. C. McLANE'S CELEBRATED VERMIFUGE** (genuine). I gave her a teaspoonful in the morning and another at night, after which she passed seventy-two worms and was a well child. Since then I have never been without it in my family. The health of my children remained so good that I had neglected watching their actions until about three weeks ago, when two of them presented the same sickly appearance that Fanny did nine years ago. So I thought it must be worms, and went to work at once with a bottle of **DR. C. McLANE'S VERMIFUGE** between four of my children, their ages being as follows: Alice, 8 years; Charley, 4 years; Emma, 6 years; John, 9 years. Now comes the result: Alice and Emma came out all right, but Charley passed forty-five and Johnny about sixty worms. The result was so gratifying that I spent two days in showing the wonderful effect of your Vermifuge around Utica, and now have the worms on exhibition in my store.

Yours truly, JOHN PIPER.

The genuine **DR. C. McLANE'S VERMIFUGE** is manufactured only

Fleming Bros., Pittsburgh, Pa.,

and bear the signatures of **C. McLane** and **Fleming Bros.** It is never made in St. Louis or Wheeling.

Be sure you get the genuine. Price, 25 cents a bottle.

FLEMING BROS., Pittsburgh, Pa.

SYMPTOMS OF WORMS.

The countenance is pale and leaden-colored, with occasional flushes of a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach; at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE

will certainly effect a cure.

In buying **Vermifuge** be sure you get the genuine **DR. C. McLANE'S VERMIFUGE**, manufactured by **Fleming Bros.**, 24 Wood Street, Pittsburgh, Pa. The market is full of counterfeits. You will be right if it has the signature of **Fleming Bros.** and **C. McLane.**

If your storekeeper does not have the genuine, please report to us.

Send us a three cent stamp for 4 handsome advertising cards.

FLEMING BROS., Pittsburgh, Pa.

Alfred Chadwick, a market gardener in Canada West, was lately divorced from his wife because he had followed the custom of the country and yoked the unfortunate woman with a steer to a plow.

"Money goes a great way nowadays," observed a New York Bank cashier, as he pocketed $50,000 of the bank's funds and set out for a trip round the world, after paying a visit to his friends over in Canada.

The boy that took down a hornet's nest and undertook to carry it home, thinking he had a bag of treasures, lost the bag on the way, but succeeded in getting the hornets to accompany him to his destination.

A Western exchange soberly announces that a justice of the peace out that way has fallen in with the spirit of the times, and advertises, "Matrimony made easy—$1 down, and balance in monthly instalments."

A young lady in North Carolina requested to be released from her marriage engagement on the ground that when she contracted it she believed her husband to be a "duck," but has since found him to be a "goose."

"How is it that you have never kindled a flame in any man's heart?" asked a rich lady to her portionless niece. "I suppose it's because I'm not a good match," responded the poor niece, in a voice filled with sadness.

It has been remarked that the boy who will cry and make an awful fuss if compelled to take a bath in the house, will consider it the acme of romantic bliss to tramp miles over a dusty road to take a swim in a stagnant pool.

A French philosopher says a woman may love or hate, but she can never be indifferent. Guess he has never seen the look that comes over a woman's face when her husband asks if there is such a thing a shirt-button in the house.

Kind words don't cost anything. This is what Miss Porter, a worthy Kentucky girl, thought when she replied pleasantly to the salutations of a gray-haired tramp. He has died and left her a snug little fortune. and now she thinks they are worth a good deal.

Never be sorry for any generous thing you ever did, even if it was betrayed. Never be sorry that you were magnanimous if the person was mean afterwards. Never be sorry that you gave; it was right for you to give, even if you were imposed upon. You cannot afford to keep on the safe side by being mean.

PERSIAN BALM.

Price, 15, 25 and 50 cents a Bottle.

SOLD BY ALL DRUGGISTS.

"Ah!" sighed Brown, "this life is full of disappointments." "Yes," replied Fogg, glancing significantly at Mrs. F., "and some disappointments are full of life."

In a recent lecture, Henry Ward Beecher said: "In this country smart men have always a chance." That is true enough; but after they have had it, hundreds of them leave their country and go to Canada and stay until the directors fix up the affair with the stockholders.

They say that old letters cut up into strips will make good pillow-stuffing. Now, I have any amount of my old love letters, which were returned, and I think that they are so soft that they would make excellent pillows. My sleep might be a little disturbed, but I believe the pillow would be very soft.

"These firemen must be a frivolous set," said Mr. Spilkins, who was reading a paper. "Why so?" "I read in the paper that after the fire was under control the firemen played all night upon the ruins. Why didn't they go home and go to bed like sensible men, instead of romping about like so many children?"

Meats and their Accompaniments.

With roast beef, grated horse radish.
Roast Pork, apple sauce.
Roast veal, tomato or mushroom sauce.
Roast mutton, currant jelly.
Roast chicken. bread sauce.
Roast lamb, mint sauce.
Roast turkey, cranberry sauce.
Boiled turkey, oyster sauce.
Venison or wild ducks, ulack currant jelly.
Broiled fresh mackerel, sauce of stewed gooseberries.
Boiled blue fish, white "cream" sauce.
Boiled shad, boiled rice and salad.
Compote of pigeons, mushroom sauce.
Fresh salmon, green peas "cream" sauee.
Roast goose, apple sauce.

The salary of the President of the United States is $50,000 per annum; the Vice President and Cabinet officers each $8,000.

Trousers obtained on credit are breeches of trust.

Iron, Nails, Pipes and Fittings,

YOUNGSTOWN, O.

FACTS WORTH KNOWING.

Chloride of zinc dissolved in alcohol will make a good flux for soldering iron, brass or other metal.

To slope cork and soft rubber, hold them in contact with a revolving grind-stone. This will insure a smooth and nice surface.

Waterproof.—To make cloth waterproof apply a strong solution of soap to the wrong side of the cloth, and when dry wash the other side with a solution of alum.

Aquarium Cements.—Eight parts of common resin melted and mixed with one part of plaster of paris and one part of boiled linseed oil; or two parts of melted pitch well mixed with one part of gutta percha; both these mixtures must be applied warm to the joints. Or two parts of zinc white and one part of copal varnish, which mixture may be applied.

A Wisconsin farmer has found a sure cure for potato bugs. His plan is to plant one or two flax seeds in each hill of potatoes. He says that the bugs will shun it every time, and for ten years he has thus been successful in growing potatoes, while others have failed.

For those who have the closed stove with semi-transparent mica as a door. it may be an advantage to learn that this same mica need not necessarily be always black and smoky. It is in fact easily cleaned. Take a little vinegar and water and carefully wash the mica with a soft cloth; the acid removes all stains; and if a little pains is taken in wiping them dry, the mica will look as good as new.

If a piece of sheet-iron is cut the same size as the inside of the bottom of the grate, and laid on the bars which constitute that bottom, most fire-places will burn just as well, less heat will be driven up the chimney, and less coal will be burnt. The chimney must, of coarse, not be one liable to smoke; the room must have a fairly good draught and the fire-places which answer best are those which are on the opposite side of the room from the door.

Cement for Uniting Metal, Wood and Rubber.—Soak shellac in ten times its amount of strong liquid ammonia. It takes nearly a month to do it, but then a liquid will be obtained which, if applied to metal or wood, will adhere, and also to rubber, as it will soften its surface before drying, and so cause a strong adhesion to it all. This cement is very valuable for making steam pipe connections having rubber washers or rings perfectly air tight, a job in which often much difficulty and annoyance are experienced.

Water-Proofing material.— When paraffine is thoroughly mixed with linseed oil, cast into small blocks, and allowed to cool, it may be used to make any fabric, as cloth, felt and leather waterproof by rubbing it with such a block and ironing afterward to equalize the distribution of the material in the pores. If too much is not put on the material may be made to be only impervious to water, but not to air, as the very small greasy pores repel the wetar but not the air.

"Emma, I hear you have broken off with George." "Yes, I am sorry, but it had to be. He insulted papa. "Why, what did he do?" "Well, you know last Sunday night papa kinder kicked him off the steps, and when he came around Monday he brought a pair of slippers with the toes padded and asked me if I wouldn't get the old man to put them on."

The first steamship to cross the Atlantic was the Savannah. She sailed from New York for Liverpool March 29, 1819.

Casualties in the Civil War.

The casualties during the war of the Rebellion in this country in the North were as follows: Killed, 61,362; died of wounds, 34,733; disease, 183,287; accidentally killed, 306; executed by sentence, 7; missing in action, 6,749; honorably discharged, 174,577: discharged for disability, 225,306; dishonorably discharged, 2,693; dismissed, 2,423; cashiered, 274; resigned, 22,281; deserted, 199,045.

Pineapple Pudding.

Line a deep and buttered pudding dish with slices of sponge cake; slice some pineapple in very thin slices and put it into a dish; cover a layer of pineapple with a layer of cake, and so on until the dish is full; scatter sugar plentifully over the pineapple; the top layer of cake should be moistened with water and have the sugar scattered over it. If you are the happy possessor of a pudding dish with an earthen cover, put this over the pudding, otherwise cover it with a dinner plate and bake slowly for an hour and three-quarters.

Peoples Mutual Accident
ASSOCIATION,
PITTSBURGH, PA.

JOHN IRWIN, Jr., President, W. M. GIBBS, Vice-President,
I. R. STAYTON, Secretary, E. R. KRAMER, Treasurer.

This Association designs to give the greatest possible benefits and protection in the event of fatal or non-fatal injuries the result of accident, at the least possible cost.

Certificates of membership contain a schedule of injuries, with a fixed weekly relief under which claims will be adjusted and paid at once regardless as to whether the injury should be totally and entirely disabling from any and every kind of business or not.

For partial permanent disablement, one-fourth the principal sum will be paid. For total permanent disablement one-half the principal sum.

All certificates absolutely guarantee that no portion of mortuary or relief assessments will be used for expenses; and expense assessments shall not exceed five dollars per year to any member.

No onerous conditions contained in Certificates of Membership.

No restrictions placed upon travel for business or pleasure in any portion of the civilized world.

Any person between the ages of eighteen and sixty-five years of age, of sound mind and body and of temperate habits is eligible to membership in this Association.

A membership fee of ($5.00) five dollars on each certificate will be required with the application for membership and no more than ($5.00) five dollars can be assessed in any one year for expense of management.

It is confidently believed, from the experience of the business in this country and England for years, that a $5,000 certificate with $25 weekly indemnity will not cost exceeding from ten to twelve dollars annually, including both Loss and Expense Fund.

FIFTY-ONE YEARS BEFORE THE PUBLIC!

MYERS, FLA., Sept. 20, 1882.

FLEMING BROS.

It affords me pleasure to assure you that after using Dr. C. McLane's Celebrated Liver Pills for more than twenty years in my family, that I regard them as being superior to any I have ever used or have seen used. I have not had them constantly, and had to try others, and I have tried a good variety, but I have never had any to act so promptly, profitably, and nicely as McLane's. I have used them on myself, wife, and children, with the most gratifying results. For children, having used them on my own with such easy and happy effect, I would recommend them to one and all. These pills do the work—do it promptly, do it well, and leave no ill effects behind. As a bile remover, as a liver corrector, as a forerunner preparing the system for quinine, there is no pill or medicine equal to Dr. C. McLane's Celebrated Liver Pills. I expect to use them as long as I live, if they continue as good as they have been in the past.

YOURS TRULY,

E. H. GILES,

Pastor of M. E. Church, South Myers' Station, Tampa District, Florida Conference.

AVOID COUNTERFEITS!

Send us 25 Cents, and we will send you by return mail a box of
